

HUNT A CRUISER IN THE JUNGLE.

*Aeroplanes Locate it and the
Monitors Destroy It.*

*Koenigsberg Totally Wrecked
by the British Forces.*

*Unique Naval Battle is De-
scribed by Admiralty.*

(BY ATLANTIC CABLE AND A. P.)

LONDON, July 12, 9:40 p.m.—The

Admiralty announces that the Ger-

man cruiser Koenigsberg, which in

the fall of last year took refuge from

the British fleet in the Ruffi River in

German East Africa, has been to-

tally wrecked by British river moni-

tors. The British casualties were

four men killed and six wounded.

The Koenigsberg, a vessel of 3245

tons, had a speed of twenty-three

knots. She was a protected cruiser.

The announcement of the Admi-

ralty follows:

"Since the end of last October the

Koenigsberg had been sheltering some

distance up the Ruffi River in a po-

sition which rendered attack against

her most difficult. Only shallow

draught ships being able to get suf-

ficiently close to engage the cruiser

effectively.

"Two months ago the Admiralty

decided to send two river monitors,

namely, the Severn, Capt. Eric Pul-

lerton, and the Mersey, Commander

Robert A. Wilson, to assist the com-

mander-in-chief of the Cape Station,

Vice-Admiral H. King Hall, in these

operations.

"The position of the Koenigsberg

was accurately located by air craft

and as soon as the monitors were

ready, the operations were begun. On

the morning of July 4 the monitors

entered the river and opened fire, to

which the Koenigsberg replied im-

mediately, firing salvoes with five

guns with accuracy and rapidity. The

Mersey was hit twice and four men

were killed and four wounded by one

salvo.

"As the Koenigsberg was sur-

rounded by a jungle the aeroplanes

experienced great difficulty in locat-

ing the fall of our shots early in the

action, but after the monitors had

reported that the Koenigsberg's masts

were still standing.

"A salvo then burst on her and she

caught fire between her masts. The

continuity to fire with one gun inter-

mittently for a while, but for the last

part of the engagement she did not

fire at all, either on account of lack

of ammunition or the disablement of

her guns. Although not totally de-

stroyed as a result of the engagement,

she probably was incapable of fur-

ther action.

"The commander-in-chief reports

that the task of the monitors was an

extremely difficult one on account of

the jungle and the trouble of ac-

curately spotting shots, but that they

were assisted by H. M. S. Weymouth,

Capt. Denis Crompton, on which ship

the commander-in-chief flew his flag

and which followed them across the

bar of the river and engaged the

Koenigsberg with its guns. H. M. S.

Pioneer, acting commander, T. W.

Biddlecombe, Royal Australian

navy, engaged the guns at the mouth

of the river.

"To complete the destruction of the

Koenigsberg the commander-in-chief

ordered a further attack on July 11

and a telegram now has been received

stating that the ship is a total wreck.

In this last engagement our casual-

ties were only two men wounded on

the Mersey."

Independence of Ireland.

(Continued from First Page.)

the boats from a mast in the bow of

the boat.

Solemnly then the Declaration of

Independence of Ireland was read

up the Hudson River, proceeding near

the western shore, Miss Waddell play-

ing patriotic Irish airs on her violin.

The music and the large flag now

plainly visible in the increasing

light, identified the boat to the sea-

men. The German ships interned at

the Hoboken water front, and the

cheered the small company of Irish-

men lustily. The captain of a Ham-

burg-American tug, which hap-

pened to be standing off with steam

up near the Vatterland, turned out to

the river and escorted the launch to

its landing at Fifth street. Inci-

dentally it was noted by those in the

launch that as they passed by the

French and English ships at the piers

on the eastern side of the river the

sailors on them cheered as loudly as

the Germans had.

The particular avowed purpose of

the representatives of the "commi-

tee" in America is to spread propa-

ganda that will contribute, at the end

of the European war, to the estab-

lishment of the republic of Ireland. Mem-

bers of the committee in Ireland, ac-

cording to information obtained, are

now engaged in a secret effort to dis-

separate the republic of Ireland from

the English army. But those mem-

bers of the committee who will talk of their

business at all admit that there is no

immediate intention of an attempt to

engage active war on England by the in-

vestigation of an armed rebellion in

Ireland. It is said that the present pur-

pose of the committee is to enlist the

sympathies of Irish and of Americans

to the "cause" than to bring about

the movement of the movement recognis-

ing as an impracticable war.

An American who is acquainted

with the committee's activities, how-

ever, while frankly admitting that

the Irishmen of the committee sym-

pathize with Germany in the present

war, asserted that this was due to

anti-English feeling and not to any

natural love of things German. The

members of the committee see in

Germany, according to their unof-

ficial spokesman, a factor that will im-

pair the power of England to oppress

them.

CHARGE GERMAN

WITH TREASON.

TWO NATURALIZED CANADIANS

ARE ACCUSED OF AIDING

THE ENEMY.

(BY A. P. NIGHT WIRE.)

VANCOUVER (B. C.) July 12.—

Ernest Hamel and David Kitzel, farm-

ers, born in Germany, but residents of

Canada for thirty years, and who long

ago became naturalized Canadians, have

been arrested charged with high trea-

son. It is alleged that Hamel and

Kitzel, who own farms

close to the border between British

Columbia and the United States, as-

sisted two Germans named Keppel and

Secord to cross the boundary into the

United States, where they found

means to reach Germany and join

the army. High treason is punishable

by death.

CARRYING COAL

TO NEWCASTLE.

(BY ATLANTIC CABLE AND A. P.)

LONDON, July 12, 12:53 p.m.—

Members of the House of Commons

and other public men in Great Britain

have been the recipients recently of

numerous pamphlets from the press

of a New York weekly publication

which is devoted to the German in-

terests. Quotations from pacifists

such as Bernard Shaw, James Ramsey

MacDonald and Norman Angell, com-

prise the bulk of the matter.

LIVELY ENGAGEMENTS ON THE RUSSIAN FRONT.

*Artillery Duel at Ossowetz is Renewed—German At-
tack Repulsed Between the Pina and Rosoga Rivers.
All Quiet on the Left of the Vistula—Isolated Actions
in the Lublin District.*

(BY ATLANTIC CABLE AND A. P.)

PETROGRAD, July 12 (via Lon-

don, July 12, 2:30 a.m.)—The

following official communication

was issued today:

"There have been lively engage-

ments on some sectors of the front of

the Bohr and Narew rivers. The ar-

tillery duel at Ossowetz was renewed.

"In the region of Edvabne yester-

day we blew up a German mine gal-

lery.

"Between the Pina and Rosoga

river a German attack was repulsed.

"Prasmyr there has been a violent can-

nonade and outpost engagement. All

is quiet on the left bank of the Vistu-

la.

"In the Lublin region there have

been isolated actions. Our troops have

finished the counter-offensive."

Irish Workmen Demand

Republic, Says Larkin.

Union Leader Declares the Laboring Man Abhors War

and is Urging Non-Resistance—"Let England Fight if

She Wants to, but Ireland has no Quarrel with Ger-

many," is His Statement.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

SAN FRANCISCO BUREAU OF

THE TIMES, July 12.—"So-called

home rule will never satisfy the

Irish Union workingmen; they de-

mand a republic. They abhor the

war and are urging non-resistance

because they feel Ireland has no

quarrel with Germany and should

be forced to help settle England's

difficulties with that country. The

labor unions of Ireland stand for

higher ideals and should be settled

on the war. I am an outlaw. A pro-

clamation ordering my arrest if I at-

tempt to return to British soil has

been issued by the British government.

James Larkin of Dublin, the Irish

Labor leader today, gave the fore-

going explanation of why he is in this

country. He will deliver an address

here in behalf of the cause he repre-

sents.

OPPOSES MILITARISM.

Touching upon the war, Larkin

said:

"The trench is no place for Irish

men."

Normandy.

AMERICAN SHIP SHIELD

OF GERMAN SUBMARINE.

Captain is Alleged to Have been Forced to Hold His

Vessel Until the U-Boat Managed to Get Around to

Sink a Russian Craft—Statement of Members of the

Crew at Liverpool.

(BY ATLANTIC CABLE AND A. P.)

LIVERPOOL, July 12, 2:10 a.m.—

How an American ship is al-

leged to have been used as a

shield by a German submarine for

the sinking of another vessel is the

story related by members of the crew

of the American bark Normandy,

which has arrived here from Guil-

ford, Miss.

The story is that the Normandy

was stopped by a German submarine

sixty miles southwest of Tuskar Rock

off the southeast coast of Ireland, Fri-

day night. The captain was called

aboard the submarine, where his pa-

pers were examined and found to

show that the ship was chartered by

an American firm for the purpose of

transporting goods to the coast of

France. The captain was told that

the ship was to be used as a shield

for the submarine to sink a Russian

vessel. The captain refused to agree

to this and the submarine departed.

The Normandy is now en route to

Liverpool.

Forty-mile Front.

(Continued from First Page.)

taken place in the Gallipoli penin-

sula since the allied forces landed

there was that which began late

Tuesday last and lasted well into

Wednesday.

It resulted in a saving forward of

the southern line of allied armies for

about five furlongs and in the infliction

of staggering losses on the enemy.

The victory was a definite stage

in the initial work of throwing forces

around Achi Baba which may now

without exaggeration be described as

one of the strongest fortresses in the

world.

The allies had been resting in com-

parative tranquillity and the Turks

therefore evidently were persuaded

that the whole army in the southern

sector was engaged in the defense of

ammunition. This belief apparently

convinced the Turks of the excellent

<

the British steamer **Horth Head** which was included in the letter writer's bomb warning. The **Horth Head** had no wireless apparatus to receive the message dispatched Sunday night from the radio towers at Arlington, Va., advising search of the ship for bombs, but it was believed she might have been hailed by some coastwise vessel which picked up the warning.

The Howth Head sailed July 9 for Dublin and Belfast via Norfolk with a general cargo. She probably will reach Norfolk tomorrow. The Baron Napier carries mules for the British army and sailed direct for Avonmouth.

FROTH UNDER LEASH.

Spaniards Publicly Criticise Government's Order Prohibiting Discussion of Neutrality.

(BY ATLANTIC CABLE AND A. F.)
PARIS, July 15.—A Havas dispatch from Madrid filed yesterday says:
"Action of the government in prohibiting the discussion of Spanish neutrality was severely criticized at a public meeting today by several

speakers who declared the prohibition was a violation of the constitution. Pablo A. Iglesias, a Socialist leader, asserted violations of the constitution were common in Spain and demanded for each citizen the right to discuss the question of neutrality. He attacked the "passive" attitude of the government regarding the local labor

"Rodrigo Soriano, another radical, criticised Vasquez Mella y Candido, the Carlist leader, whom he charged with having spoken ill of Great Britain in a public speech."

THE CITY AND ENVIRONS.

EVENTS BRIEFLY TOLD.

Governor Due Tomorrow.

Gov. Spry of Utah, with 400 Utah cadets, is due here at 7 o'clock tomorrow morning in a special train over the Salt Lake. The Utah contingent will spend two or three days here, then go on to San Diego.

Not Closed for Summer.

Contrary to the report emanating from the Statens Mothers' Club Saturday, the officials of the Statens playground stated yesterday that the playgrounds are not closed and will not be closed all summer. An elaborate programme, including entertainments for each week day, has been arranged for this season.

Garfield Drops Dead.

E. A. Hoffman, the veteran gardener of the Midwick Country Club, was going about his duties as usual on Saturday when he dropped dead in front of the clubhouse. A hemorrhage of the brain, unheralded by any sick feeling, was the cause. Mr. Hoffman was 54 years old and leaves a widow, four sons and a daughter. Funeral services will be conducted this afternoon from the residence at Ramona Acres, with interment at Inglewood.

Missionary to Speak.

Miss Olive Gibson, missionary for fourteen years in Mexico and who has had some thrilling experiences, will speak tomorrow evening at the mid-week service of the First Congregational Church. Under her administration, eight mission schools have been established in as many New Mexico villages and a large industrial school at Albuquerque. Miss Gibson is on her way back to San Mateo, N. M., after attending the Women's Congress of Missions in San Francisco.

Word that a party of Harvard alumni and members of their families, totaling about 600 persons, will sail from New York the 15th inst. on the steamship Finland to visit the exposition and Los Angeles, was received yesterday by the Chamber of Commerce. The party is being arranged by the Harvard Club of San Diego August 16 and will leave several days later by train for this city. An elaborate programme of entertainments for the visitors is being arranged by the Harvard Club of San Diego.

WONT ARREST TEACHER.

Three Forgery Charges Laughed When Cost of Returning Her from Canada is Computed.

Miss Theodora Rogers profited greatly by going to Canada. She saved herself prosecution on three charges of forgery. Because it is so expensive for Los Angeles county to apprehend the school teacher who played merry with checks here she is to be allowed her liberty.

When she disappeared from the city, leaving a starting check for \$100, she said she was going to Oakland to marry a doctor, and she would return all the money she had cost the persons who trusted in her.

Yesterday word was received by a private detective agency, having in quest the arrest of Miss Rogers, that she had gone to Vancouver. Immediately arrangements were made to arrest her, but when the agents of the county computed the cost of apprehending the young woman and returning her to this city for trial, the matter was abandoned.

She has promised to make amends for her delinquency and the creditors are relying on her word. She is a teacher in the public schools, and is now absent on a leave.

CROFT TAKEN NORTH.

Kenneth Croft, the English reservist, arrested on a warrant from San Francisco, charging him with violation of the neutrality laws, was taken north last night by Deputy United States Marshal Bassett, the accused having waived all formality in regard to his removal for arraignment and trial before United States Commissioner Williams. Before leaving Croft had a long interview with C. White Mortimer, British Vice-Consul, but both parties refused to talk as to his purpose.

PERSONALS

R. C. Long, general manager of the Pennsylvania Railroad, will arrive here the 10th inst., according to advice received yesterday by the Santa Lake. Mr. Long is head of the transportation department of all the Pennsylvania lines east of Pittsburgh.

State Senator Herbert W. Ellis of Santa Rosa, Deputy Grand Exalted Ruler of the Bay District (California) Elks, who is city editor of the Santa Rosa Press, is here attending the Elks convention.

John H. Sims, editor of the Trenton (N. J.) Times, is a visitor in Los Angeles, and enjoying himself.

CRIMINAL TRIAL DATES ARE SET.

JULY TERM OPENS IN FEDERAL DISTRICT COURT—BIG CASES PENDING.

Yesterday was the first of the July term of the United States District Court, and Judges Trippett and Bledsoe made the assignments of criminal hearings for the coming six months. Judge Trippett called the calendar in the morning, and Judge Bledsoe in the afternoon.

In Judge Trippett's department today, the term grand jury will be impaneled and sworn, and immediately begin its work.

In response to the urgent request of Atty.-Gen. Gregory, who thought the case of the government against the Seaboard Oil and Transit Company, whose officers have been indicted for using the mails to defraud, was not being pushed, Judge Trippett yesterday set the hearing of the case for November 24.

The case against Baltasar Avila, Gen. B. J. Viljoen and others, charged with violation of the neutrality laws, was set for trial November 22.

There was a swarm of attorneys and clients in Judge Bledsoe's court when the case against a half-dozen dealers in lottery tickets was called for trial.

The first hearing was fixed for November 26. It is understood that some of the "higher-ups" in San Francisco have furnished funds for the retention of attorneys, and that the defendants will put up a hot fight. Those to be tried on the above date are Edward Lower, W. H. H. Young, Larry Sullivan, W. A. Daniels, W. L. Pettit and John P. Buckley. On November 4, the case against Louis Fitzgerald, W. H. Young, Pearl M. Pawcett and W. A. Daniels will be up for hearing.

The American Brokerage Company case was set for December 2. This was one of the most expensive cases ever tried in the local Federal court. It required weeks of Judge Wellborn's time, and resulted in the acquittal of two of the defendants. The amount of money involved in the operations of the corporation was not over \$1000. Witnesses were summoned from all parts of the country and the first hearing cost the government not less than \$5000.

The indictment against Olaf A. Tveitmo and others, charged with transporting dynamite in violation of interstate commerce laws, was postponed for the term. It is understood the instrument will be allowed to die unless something turns up to cause the District Attorney's office to get busy.

Henry W. Fauser and his wife, Helen Fauser, and Henry H. Lee, a Chinese, will be tried September 1 on the charge of smuggling smoking opium. This is the case in which Frederick M. Shepard, the convicted attorney, played a part.

Fred L. Foster, J. B. Mayer, R. L. Foster, Ray G. Veasey, Lee Riddle, L. Cherokees and A. W. Green, charged with using the mails to defraud in a Kings county farm project, will be tried October 5.

Joseph A. Brune and others charged with smuggling Chinese will be tried September 25.

FRENCH TO CELEBRATE.

Anniversary of Bastille's Fall to be Observed with Programme Tomorrow—Allies to Participate.

Young girls will represent the "Living Flag" for the celebration of the fall of the Bastille, to be held at the Shrine Auditorium tomorrow at 2 p.m. The delegates, representing the French colonies of Southern California, Arizona, Nevada and New Mexico, all arrived yesterday.

Every society of the allies—the British, Italian, Russians, Servians and Belgians—has appointed a committee to be present. They will drill in costumes for the exercises of the afternoon programme.

The main feature of the programme will be Mme. Yorlka, the talented artist from the Theater Sarah Bernhardt of Paris, who will recite "Ma France" and "Cloches de France."

The young girls of the colony have been very active in selling tickets for this fête, one girl having sold, yesterday, 375. The entire proceeds of the fête will be given to the Red Cross.

The new Grand Exalted Ruler of the Elks of the United States

FIVE THOUSAND ELKS IN
DAY OF UNDILUTED JOY.Pasadena and Glendale Join Hands in
Triumph of Hospitality.Great Throng of Antlered Visitors Make Merry on the
Hotel Lawns, Where Giant Luncheon with Al Fresco
Cabaret is Provided, Frolic Through the Groves and
Fill Foothill City's Open House to its Limit.

THE GREAT PENDULUM of hospitality, set in motion by Southern California to count happy moments for the visiting Elks, swung joyfully between Pasadena and Glendale yesterday. The two cities were joint hosts in entertaining 5000 guests in a manner that made history in Elksdom.

The official programme of the Elks' convention gave scant information about the plans for Pasadena-Glendale day, the programme from the first having been shrouded in mystery. The Crown City and its neighbor across the hills said: "Come—there'll be something doing."

A great crowd of good sports were willing to take the chance. They took it and won. The cities had something up their sleeves—a great big day of joy, which began at 9 o'clock in Pasadena and ended in Glendale when the last "Bill" left there—whenver that was, probably some time this morning.

Taken alone, either Pasadena or Glendale is capable of accomplishing great things. When they join hands in an undertaking the result is something entirely extraordinary.

Long before the millionaires in Pasadena had breakfasted the stampede from Los Angeles was on. As early as 8 o'clock Elks by hundreds were arriving in the vicinity of Hotel Green, official headquarters for the Pasadena end of the celebration. They went by auto, jitney—near kin to the auto—and by swift red cars over the electric line.

The Elks didn't know where they were going, but they were on the way to somewhere that seemed to be full of promise. At 9 o'clock, when a crowd of something like 2000 had collected in and around the hotel here, came a caravan of more than 1000 motor cars.

AROUND PASADENA.

"Please get in," said the members of the Pasadena Reception Committee to the waiting multitude. "Get in and let us show you Pasadena, the beautiful—Busch's Gardens, Orange Grove avenue, the baby ostriches at the ostrich farm, the homes of the money kings, the millions of fair blossoms. Come on and don't push—there's lots of room."

A. L. Ryder, chairman of the Motor Car Committee, stood on the sidewalk in front of the hotel and with his hand waved the thousands into the cushioned seats. In this feature, as with everything else that Pasadena did yesterday, there was studied system. The gasoline cars did not scatter over the city, but were marshaled into a well-managed parade, which followed a prescribed route.

Cards, printed in purple ink, gave the following as the route of the auto trip: Raymond avenue to Colorado street, Colorado to Marengo avenue, Marengo to California street, California to Grand avenue, Grand to Busch's Gardens, the gardens to Madeline drive, Madeline to Orange Grove avenue, Orange Grove to Colorado street, Colorado to Grand avenue, Grand to Arroyo Terrace, the terrace to Orange Grove, Orange Grove to Colorado street, Colorado to Hotel Green. The triumphant spin lasted two hours, the cars returning to the hotel grounds and Central Park at 11.

(Continued on Third Page.)

TWO IN ONE.

H. McTague, St. Louis Lodge No. 10 is owner of the Maryland of that city, and also a restaurateur of note, appeared at Elks' banquets last night. McTague, seen visiting his daughter in Los Angeles, having chosen this time as to be in nicely with the reunion. McTague is a close friend of Charles Comiskey, "Old Roman" of the Chicago Sox. Mr. McTague caught on school team of which the Old man was pitcher. Needless to say, once famous batter is now has in the baseball line. They are from has been as Elks, though.

ELKS TAKE TO
SALT WATER.

This is Santa Monica Bay Day for All but Delegates to Grand Lodge.

Following is the Elk programme for today, officially designated Santa Monica Bay Day:

Leave Pacific Electric Depot for Elks Clubhouse, Santa Monica, 9 a.m.

Concert by Venice of America Band, 10 to 11 a.m.

Auto rides for visiting ladies. Luncheon at Elks' Clubhouse, Santa Monica, 11 a.m. to 2 p.m.

IN LOS ANGELES.

Opening of Grand Lodge for business, 10 a.m. to 3 p.m.

Elks' Band Contest, to which all visiting Elks' bands from outside of California are eligible. To be held in Central Park. Electrical pageant, 8 p.m.

Route—Start at Jefferson street and Grand avenue, Grand to Hill, Hill to Third, Third to Main, Main to Jefferson.

Pasadena-Glendale Day
Among the Elks yesterday. The top picture shows the great concourse on the lawn of the Hotel Green, in Pasadena, where luncheon was served and where a huge al fresco cabaret was provided. In the center picture Elk S. Greenleaf says to assist in a complicated Spanish dance—originally part of the cabaret aforesaid. At the bottom Elk W. Harrell is enthusiastically disposing of trijoles.vention City Today.
From a purely Elk standpoint, today is the most important one of the great reunion. The Grand Lodge will elect a new Grand Exalted Ruler and will select the city where the 1916 reunion will be held. Opening ceremonies of the Grand Lodge session will be presided over by Grand Exalted Ruler Benjamin.
Mr. Benjamin will deliver his annual report and will make recommendations to the order concerning various proposals advanced.
The Grand Exalted Ruler will be followed by the Grand Secretary, Fred C. Robinson, who will report on the year's work. Following the Grand Secretary, reports will be made by the Treasurer, Grand Trustees and Committee on Auditing.
The election will follow and the day's business will close with the selection of 1916 convention city.One of the Magnificent

SPREADING PAIR OF ELK HORNS IS MADE THE VALLEY'S CROWN.

Supplement—Large and Handsome Portrait of the New Grand Exalted Ruler of the Elks, Ready for Framing, Free with Every Copy of Today's "TIMES."

WINE SPIRIT HALLOWS GRAND LODGE OPENING.

Greetings and Impressive Ceremonial Clear Field for Struggle Today.

Welcome of City and State Extended to Elks' Central Body Amid Spirited Scenes that Culminate in Inspiring Oration to Grand Exalted Ruler—Most Important Meeting Due.

By playing on the big organ "Where the River Shannon Flows." The audience at once caught the significance, and Mr. Shannon was fittingly welcomed as he advanced across the stage at the head of the speakers and Grand Lodge officers.

Proceeding the programme Grand Chaplain John Dwyer pronounced the invocation, which was followed by an organ solo by Mr. Stronbridge.

CONFERENCE REWARDED.

On behalf of the Reunion Committee, Edward A. Regan extended a hearty and cordial welcome to the members of the Grand Lodge, visiting Elks and their families. He declared that when the Grand Lodge decided at Denver last year to come to Los Angeles, the local members of the order felt some misgivings, as the conditions were unusual, but they had relied upon the Elks of Southern California to rise to the occasion and their confidence had been amply rewarded.

They had spared neither time, money nor pains, he said, to welcome and entertain their visiting brothers in a manner that should be worthy of the order and the State, and he believed the result would show their success.

"God has endowed us," said the

Pasadena-Glendale Day
Among the Elks yesterday. The top picture shows the great concourse on the lawn of the Hotel Green, in Pasadena, where luncheon was served and where a huge al fresco cabaret was provided. In the center picture Elk S. Greenwald is seen to assist in a complicated Spanish dance—originally part of the cabaret affair. At the bottom Elk W. Harrell is enthusiastically disposing of frijoles.

FIVE THOUSAND ELKS IN DAY OF UNDILUTED JOY.

Pasadena and Glendale Join Hands in Triumph of Hospitality.

Great Throng of Antlered Visitors Make Merry on the Hotel Laxens, Where Giant Luncheon with Al Fresco Cabaret is Provided, Frolic Through the Groves and Fill Foothill City's Open House to its Limit.

THE GREAT PENDULUM of hospitality, set in motion by Southern California to count happy moments for the visiting Elks, swung joyfully between Pasadena and Glendale yesterday. The two cities were joint hosts in entertaining 5000 guests in a manner that made history in Elksdom.

The official programme of the Elks' convention gave scant information about the plans for Pasadena-Glendale day, the programme from the first having been shrouded in mystery. The Crown City and its neighbor across the hills said: "Come—there'll be something doing."

A great crowd of good sports were willing to take the chance. They took it and won. The cities had something up their sleeve—a great big day of joy, which began at 9 o'clock in Pasadena and ended in Glendale when the last "Bill" left there—wherever that was, probably some time this morning.

Take alone, either Pasadena or Glendale is capable of accomplishing great things. When they join hands in an undertaking the result is something entirely extraordinary.

Long before the millionaires in Pasadena had breakfasted the stamper from Los Angeles was on. As early as 5 o'clock Elks by hundreds were arriving in the vicinity of Hotel Green, official headquarters for the Pasadena and Glendale celebration. They went by auto, jitney—near kin to the auto—and by swift red cars over the electric line.

The Elks didn't know where they were going, but they were on the way to somewhere that seemed to be full of promise. At 9 o'clock, when a crowd of something like 3000 had collected in and around the hotel here, came a caravan of more than 1000 motor cars.

AROUND PASADENA.

"Please get in," said the members of the Pasadena Reception Committee to the waiting multitude. "Get in and let us show you Pasadena, the beautiful—Busch's Gardens, Orange Grove avenue, the baby ostriches at the ostrich farm, the homes of the money kings, the millions of fair blossoms. Come on and don't push—there's lots of room."

A. L. Ryder, chairman of the Motor Car Committee, stood on the sidewalk in front of the hotel and with his hand waved the thousands into the cushioned seats. In this feature, as with everything else that Pasadena did yesterday, there was studied system. The gasoline cars did not scatter over the city, but were marshaled into a well-managed parade, which followed a prescribed route.

Cards, printed in purple ink, gave the following as the route of the auto trip: Raymond avenue to Colorado street, Colorado to Marengo avenue, Marengo to California street, California to Grand avenue, Grand to Busch's Gardens, the gardens to Madeline drive, Madeline to Orange Grove avenue, Orange Grove to Colorado street, Colorado to Grand avenue, Grand to Arroyo Terrace, the terrace to Orange Grove, Orange Grove to Colorado street, Colorado to Hotel Green.

The triumphant spin lasted two hours, the cars returning to the hotel grounds and Central Park at 11.

THREE DAYS THEN AWAY

First of Great Street Spectacles Electrical Pageant this Evening—Tomorrow Morning Massed Band Procession and Midsummer Floral Dream—Thursday Morning is the Elks' Own Magnificent Display.

"It may be asked, who are these men who have come to Los Angeles? And the answer is ready. They are the men who preach and practice first and always the principle of heartfelt love for their fellow-man. They give without measure and proclaim not their good deeds from the house tops. They represent one of the oldest and best of American orders. The California Elks are proud of their order and believe in it with all their strength. Whether you come from East, North or South, the commands of the Elks of the State are extended to you, and we have here a great-hearted people composed of many races, but blessed

MASSED BAND PARADE
The massed band parade will be a reversal of the usual line of march. Assembling at 3:30 o'clock on Broadway, the bands will march away between Franklin and Temple streets, the bands will move promptly at 9 o'clock via Broadway to Tenth, where they will turn right. This parade will be a mere preface to the "Midsummer Dream" pageant which will follow.

So far Van Nuys, Glendale, Redondo Beach, the Orange Commercial Club, and the Utah State Cadets are the only bands that have officially entered bands in this parade, though many of the Hollywood Gladiators will also participate. The parade will also be composed of bands as well as the band companies of the Richmond Left Infantry Blues, who are to arrive here this afternoon on a special train from San Francisco.

THREE DAYS OF WORK; THEN AWARDS OF CASH.

Interest Now Centers on Who will Find Places in List of Twelve Winning Special Money Prizes for Largest Lists of New Yearly Subscriptions—Offer Closes Next Thursday Night.

THE contest which the Times Educational Fund has been conducting since last July, when it was announced that it would award cash prizes to the twelve winners of a contest for the largest lists of new yearly subscriptions, is now in its final stages. The contest was announced on July 1, 1914, and since that time it has been the subject of much interest and discussion. The contest is now in its final stages, and the winners will be announced on Thursday night, July 22, 1915.

Youngest Life Member of Elksdom.

Johnnie Nichols, eight months old.

And is right on the job at the convention. He came all the way from Ardmore, Okla., and holds all records for youthful attendants at such an affair.

SMALLEST ELK SILENT MEMBER.

LEAVES THE TALKING TO HIS FATHER—HE'S EIGHT MONTHS OLD.

No use arguing, Johnnie Nichols is the smallest Elk on the job, and he doesn't brag about it, either. For a fact, he does little or no talking. He leaves that to his father, who has been Exalted Ruler of the Elks at Ardmore, Okla., and a delegate on numerous past occasions. This is the first time that Johnnie has been to a convention, and he's keeping mum and learning things. His mother is helping him in this educational pursuit.

A HOME for \$100 Cash

What are you doing with your money—buying a bunch of worthless paper rent receipts or BUILDING UP A TANGIBLE HOME FOR YOURSELF AND YOUR FAMILY?

A few years from NOW will tell the story—a deed worth two or three thousand dollars that will make you independent of the rainy day or a bunch of rent souvenirs!

We have sold hundreds of homes to FORMER rent payers. They started INVESTING THE RENT MONEY each month instead of helping to support a landlord and TODAY they are proud OWNERS OF DEEDS to their own homes.

Every month is your loss—investigate today—start to SAVE FOR YOURSELF.

Here's a Cosy Bungalow

Five rooms, bath and screen porch—with all modern improvements—with lawn and flowers and a great big lot where you can raise all the poultry you want—two blocks from 5c yellow car line—20 minutes from Broadway—a charming home—\$2350—worth \$2500—for \$100 cash and \$20 a month interest included.

Just as easy as rent but this way IT'S YOURS. Call, or phone—we will gladly take you out to see it.

Brady-Janss Co.

320 Pacific Electric Bldg.
Home 10026 Main 1371

11 a.m. to 3 p.m. It made no difference whether you were adorned with a badge or not—you didn't have to show credentials to get something to eat. All that was necessary was to edge up to one of the distributing depots and hold out your hand. A well-filled plate was sure to be forthcoming. Dave H. Boies was general manager of the lunch arrangements. When it was all over he was showered with congratulations.

The Elks Clubhouse, beautifully decorated inside and out, was the scene of an informal reception that lasted all day. Scores of newcomers were on duty.

It was a busy day for Arthur K. Wyatt, Exalted Ruler of Pasadena Lodge No. 672, ex-officio head of all committees and the man who deserves much honor for the brilliant success of the occasion. Under him was a Reception Committee of fifty Elks and their wives. Dr. A. B. Palmer and Harry P. Monahan, general agent in Pasadena for the Lake Tahoe Railway and Transportation Company, were among the men who ably assisted Mr. Wyatt in extending hospitality.

Early in the afternoon motor cars began to take the visitors from Pasadena across the famous bridge over the Arroyo Seco, past Eagle Rock through the hills to Glendale. Pasadena is a dry town, but in Glendale there was cold beer in bottles. The afternoon was warm, and the bear from the "East Side" of Los Angeles constituted one of the popular surprises of the day.

To say that Glendale was hospitable to her visitors is putting it mildly. Cordial, sincere and bountiful was Glendale's welcome and entertainment. The visitors left the motor cars in front of the Glendale Elks Clubhouse. From the moment they were received by a committee of good fellows, who lined the sidewalks and the stairs all the way up to the parlors of the hall, the guests felt that they were in a town that knows full well how to make folks comfortable and at home.

Hundreds of visitors crowded into the spacious lodge hall, where a band was playing. Somebody hinted that she would like to dance. Immediately the rugs were rolled up. The band changed its tune to a one-step, and an impromptu dance was in full swing. The principal feature of Glendale's entertainment was a rodeo, given on Brand boulevard. A notable gathering of "Wild West" performers had been gathered for the occasion. The

programme began with a thrilling stage hold-up that was followed by fancy riding by both men and women, exhibitions in roping and other feats which were common in the California of other days. Hosea Steelman had charge of the rodeo arrangements.

After the rodeo the crowd went back to the Clubhouse. There was more dancing and an entertainment by some of the cabaret performers who had appeared in Pasadena. Joseph B. Lindsey, Past Exalted Ruler of Spokane Lodge, No. 213, expressed the sentiment of the visitors in an impromptu speech, in which he declared that he had never experienced more cordial hospitality anywhere in America.

ON ENTRY LISTS.
San Fernando Valley Cities and Glendale Active in Elks' Doings. Especially the Parades.

The San Fernando Valley cities and Glendale are right up front in the entry lists for everything that is doing this week, with the last-named particularly prominent in making the great Elks' gathering a success.

For the big "Midsummer Floral Dream and Allegorical Pageant" tomorrow floats have been entered by the chambers of commerce of Van Nuys, Burbank, San Fernando and Owensmouth, and by Glendale lodge No. 1184, B.P.O.E. The lodge will also have two decorated automobiles in this parade, as well as a marching club in the Elks' own parade Thursday.

Van Nuys and Glendale have also proffered bands for use in both the masked band parade early tomorrow morning and the "midsummer floral dream" affair that will follow it.

AS TO EXPENSES.
MR. APPELEGATE KNOWS.
"The watchdog of the order." That's what they call L. Applegate, who is the approving member of the Board of Trustees. By that is meant he has the right to know how every delegate has spent a cent that is charged on the expense blanks. He uses up much of his time while at home in Owensmouth, to figure out ways and means for reducing these expenses for the Grand Lodge, and last year they say he was home as many as two or three days. Some traveling man.

LADIES shopping will find a delightful luncheon at Hotel Lankford, 12 to 2 o'clock, B.V. only. Business men's luncheon, hotel, etc.

"Watchdog" Applegate.

Without his O. K. expense accounts might just as well be blank paper. He knows how much a delegate can do on his \$10 a day and also what a berth fare should be from Pueblo or any other town to Los Angeles.

The Beautiful Sample Line of The American Underwear Co. Far Under Usual Prices

Probably no news could be more worth printing than this, at the very height of summer, in this latitude.

Of all the companies making underclothes for women, none stands higher, none is better known or more highly respected from coast to coast, than the company whose samples we have secured to sell at these very unusual prices.

Years ago they took their place at the very top, and today you will find merchants who depend upon them almost exclusively.

Their samples are, of course, their best—you will find no dropped stitches, no puckered seams, none of the blemishes that seem impossible to avoid in making great quantities of anything; but they are not absolutely fresh—they have been shown to stores as samples of how good "American Underwear" is and they are a little mused, and now and then even soiled. All size 38—all samples are.

- Here are a few examples—
- At 95c—Nightgowns**
In a dozen styles—all fine and wonderful for the price—cambric and nainsook, trimmed with embroidery or laces.
 - At 95c—Petticoats**
The latest styles—to match the latest styles in suits and dresses—wide, rich in trimming and often flounced.
 - At 95c—Slips**
Cut and made for this summer's sheer gowns, in the most attractive styles. Some of them quite simple.
 - Slips at \$2.95, \$3.95 and \$5**
More than two dozen different styles, ranging from good, allover embroidery to styles so fine that even a practiced eye finds it hard to distinguish from the French. The embroidery on some of these is done by hand, but they have been made by machine and vie with the French in beauty.
 - Petticoats 95c, \$1.95, \$2.45, \$2.95**
The latest cut—all different, and who can tell which of them all is best? We couldn't.

French Lingerie Reduced

and reduced enough to make it perfectly clear to almost any woman, at a glance.

Nightgowns \$1.95, \$2.95, \$4.95

Hand embroidered and hand-made—and if you can't afford French underclothes, don't look at them! French underclothes have a way of stealing hearts away that we can't help. Don't look at them—not unless you can afford them!

Chemises \$4.95

Hand embroidered and hand-made—fascinating—wonderful garments.

Combinations \$1.95 to \$4.95

Culled from higher priced groups, and reduced—values that will prove of interest to discriminating buyers.

TREND OF THE FINANCIAL NEWS.
CRISIS EVENTS OF YESTERDAY.

(A. Home.) A wave of buoyancy struck the industrial and financial districts such as is seldom seen and nearly every security offered for sale was snapped up at ever-increasing prices. Some of the companies making war contracts were offered 20 points increase for their stocks. Other increases ranged from 3 to 10 points. Europe continued to sell their holdings because of prevailing high prices on this side.

(Abroad.) The Bank of France has put on extra clerks to receive gold being offered by the people in exchange for bank notes. The French war loan has been increased to \$1,400,000,000. In London the gold reserve is being rapidly depleted because of shipments to America to pay for war material.

(For details, see financial pages.)

MEASURING HIS EXPERIENCE.

We notice that the Governor of Kansas has invited every child in the city of Topeka to his birthday party. And now we wonder if he has anybody at home to spill his ink and put candy in his beard.

IN FAVOR OF THE AUTO.

No, we don't go so far as to say that the robbery of the stage coaches in Yellowstone Park was arranged by automobile agents, but we admit that the auto people cannot help it if these incidents result in a change of system.

THOSE U BOATS.

King George of England, in an address to his navy, declared his belief in the ability of his ships and sailor men to cope with all emergencies. We understand that he meant by an emergency and so did they. The King had in his mind those little submarines.

OUR LATEST COMPLAINT.

Something is always wrong with Los Angeles. For a long time you could not see the town for the houses and now you cannot see the houses for the people. When to a large city an additional sixth is added to its population it helps one to realize just how big the place is.

PROCESS OF ELIMINATION.

One hears a lot about being self-centered. This probably means that one should be at rest in themselves and let their faults and troubles come to the surface for elimination instead of taking all of their shortcomings and worries to heart while they themselves float around on the surface.

STRIKING BOTTOM.

One often hears about the strict honesty of gamblers in paying their debts to one another. The motive of these gentlemen, for their mutual integrity is not always understood. The point is that they have gone just as far as they dare. They recognize that they must stop somewhere and they don't care about going any further in the wrong direction than they have already gone.

ALL ALIKE.

In a downtown shop window the management has placed a number of dry land turtles. They are of unusual size and it is highly amusing to watch them running races and fighting with their own reflections in the mirrors. This is all quite human. Are not all of the fights of men and women with their own shadows? Is it not simply the faults that are in ourselves which we most bitterly resent in others?

PROVE UP FIRST.

This proposition of having the rights of our neutrality respected sounds grand, but it would be more practical and have a wider appeal to the world's justice if our neutrality could be established before we ask to have it recognized. Of course there is one man in America who appreciates the rights of our neutrality. We refer to the gentleman England has formally appointed and sent to this country to oversee the output of munitions and arms in the United States.

PLENTY AMUSEMENT.

Los Angeles is mighty lucky in the quality of theatrical entertainment it has to offer the Elks this week. At the Mason is clever Elsie Ferguson with a superb drama. At the Morocco the jolliest of musical comedies holds the bills, and at the Break a new play called "Miracle Mary" is capital of its kind, even though it is not precisely the vehicle that best sets forth the talents of Miss Rambaud. As for pictures, Los Angeles has more good film drama offered at first hand than any city in the world. The Elks are all dressed up and they have plenty of places to go.

THE READ AUTHORS OF THE WAR.

The Rev. Dr. Price of New York has discovered who it is that is responsible for the European war. It is Haackel, Darwin and Bob Ingersoll. Darwin crowded God out of nature, Haackel emasculated Martin Luther's German Bible, and Bob proclaimed that the law of the jungle is superior to the law of Christianity. The result was that peace-loving Britons discontinued kindly appropriation of other peoples' islands, and collaborated cheerfully with infidel France in an attack on Germany, and God-fearing, home-loving Germans dropped their Bibles and went to hurling stinkpots at Russians. See?

GOD WOT!
 God heard the embattled nations sing and shout
 "Gott strafe England" and "God Save the King."
 God this, God that, and God the other thing,
 "Good God," said God, "I've got my work cut out."

This from the London Herald in a burst of sympathy for the Dolly, under a title of "God's Troubles."
 And we have been taught to believe in the efficacy of prayer. A great many of us pray diligently and exhort others to do likewise. Yet prayer—outside of set ritual—is a very dangerous thing. A quite earnest, soul-felt prayer is the essence of adventurous courage. Granted, it might change our whole lives and would probably be very bad for us. Withheld, and our faith trembles, it is so long before we can say "Thank God, He denied me that."

And it is rather appalling to think what a lot of work we must give the Recording Angels if all our prayers are noted and receive respectful attention in due course. Such a little delay, and we have quite changed our mind, but very few of us remember to notify headquarters and withdraw our appeal.

It must be such a very small minority of us who are businesslike and methodical in the matter of prayers. We must occasion such an unnecessary lot of trouble. The least we should do is to keep a careful list of requests, tick them off as they are granted, notify headquarters on those that have become superfluous, humbly withdraw those we came to realize are in bad taste or exceeding all decent requirements.

When the nations of the world start out with a hurricane of indiscriminate praying as they have been doing of late, it is most unfortunate if all the prayers were granted. But the nations and peoples continue to do it through history and most of them have lived quite long enough to know better.

France, England and Russia have all prayed for the utter annihilation of each other at times, and England at least has prayed unctuously for success to Prussian arms—and none of them feel at all that way now. Yet without any apology for former error they start right in gibbering to pray exactly contrariwise and are most aggrieved to find the Dolly inactive on their behalf in this crisis.

But He probably knows that the time is very near when the great Anglo-Saxon Alliance for the maintenance of world peace by the two most favored nations is at hand, and a gracious loophole is being conceded for praying for the damnation of Russia and the United States, the two nations who will most certainly regard the alliance with a dubious eye.

It was such a little while after Russia had prayed earnestly for the crushing of the insidious Jap that that Russo-Japanese agreement was signed and sealed (another and more affectionate one was added only last week), and Russia would be feeling a little conscience-stricken now if her prayer had been granted, or else be so preposterously arrogant that all the world would be fighting her instead of the Germans.

A granted prayer entails an element of responsibility. There was the genius who prayed God to send him a fower. And God favored his request. It was a very beautiful fower and he praised it mightily. He held exhibitions daily and showed it to his friends. He worshiped it, wrote poems to it, composed music for it, spread its fame.

But he forgot to water it and it withered and died. Then he cursed God for his cruel bereavement, why, he had been singled out for this cruel torture? God only knew.

Very few prayers will bear the white light of criticism, outside of those written for us by the wise fathers of the church. Many a cynic has tried to rend the Lord's Prayer, but it can't be done. It is just prayer, every sentence, every word beyond reproach and it covers all our needs.

"Fulfill now, O Lord, the desires and petitions of thy servants as may be most expedient for them; granting us in this world knowledge of Thy truth, and in the world to come life everlasting."

This is the safe prayer, the sort of prayer we can hope to see granted with profit to our spirits, devoid of embarrassing regrets and self-reproach, calling for no modifications or retractions.

NOT PRIVILEGE, NOT FAVOR.

They do not understand us, they cannot grasp the sentiment that inspires us or the principles for which we stand—these warring European nations that answer our protests against inhuman slaughter and international anarchy with counter proposals, conceived in selfishness, directed by selfishness and appealing to sordid self-interest.

It is not privilege, it is not favor, it is not money indemnity for which at the present crisis the whole American nation through its President will continue to fight with the weapons of diplomacy, so long as these weapons have a chance of prevailing, and with other weapons if these must fail utterly.

It is for justice and right, it is for sacredness of treaties, it is to save the wreckage of international law that we are pressing and this being so we cannot become a party with Germany in her submarine warfare or with Great Britain in her illegal blockades.

We are not an opportunist nation, we never have been, we never will be; we are not considering whether the course we are resolved to pursue is for our commercial advantage alone. We fight for American rights and the rights of all neutrals to carry on their legitimate occupations in peace and security.

A fatal misunderstanding may result if belligerent Europe continues to treat our protests as inspired purely by material considerations or fails to see that for a principle we will sacrifice all the lesser advantages we can derive by renouncing those principles.

It is claimed that England will never consent to conscription, because it never has been done in that country. But this war has dynamited a lot of precedents. And it is not over yet.

What is to become of the unpatriotic business man who continues to lose money when the President of the United States tells him that he really ought to be making more than he did under the wicked Republican rule? It is possible he cannot square conditions with his desire.

Dubious.

GLORY FOR FRANCE.

BY TOM FITCH.

There is no patriotism more enthusiastic than that of a Frenchman. The American rises to his feet and takes off his hat when the band strikes up "The Star Spangled Banner." The Englishman chants "God Save the King" in strident and aggressive tones. The Irishman gives voice to "The Harp that Once Through Tara's Halls" in monotonous sweetened with the sob of centuries for the lost nationality of Erin. Every Scotchman yearns to take off his breeches and wear kilts when he hears the bagpipes drone "Scots Wha Hae wi Wallace Bleed." The German believes that there are no strains so inspiring as those of "Die Wacht am Rhein," but the Frenchman sings "France, I Adore Thee," not only with his voice but his soul, and the sound of the "Marseillaise Hymn" infuriates him with delight.

The Frenchman is not merely patriotic in his music. He looks upon the enemies of his country he sees a collection of irreclaimable wretches and villains. He beholds Helen's beauty in the Egyptian brow of the descendant of the dullest-browed, flat-nosed favorite who was raised to the throne by a Bourbon king. He believes that Napoleon the First was greater than God was at his age. The disasters of France he attributes to spasms of forgetfulness on the part of the Almighty, and he quite indorses the utterance of the French King, who when tidings came that one of his generals had lost a battle, exclaimed, "Has God then forgotten all I have done for Him?"

It is France as a nation and not any individual Gaul that inspires the patriotism of a Frenchman. Whether a Bourbon, a Bonaparte or a Bismarck, rules at the Tuilleries is all one to the Frenchman. When the fever of patriotism throbs in his pulse, he cries "Vive la Roi!" on Monday, "Vive l'Empereur!" on Tuesday, "Vive la Commune!" on Wednesday, and "Vive la République!" on Thursday. But on every day it is "Vive la France!" From prince to peasant glorification of country has been taught as a duty and extolled as a virtue in France.

When a Bonapartist commander-in-chief was on trial for surrendering to the Germans, after Sedan, he answered, "The enemy had won, my Emperor was prisoner, the commune controlled Paris."

"But," said the Duc d'Aumale, the president of the tribunal, "there was still France."

A sonave on guard at the Paris zoo was on trial recently for mutilating a tiger. He had lashed the beast, drawn him up to the bars of the cage, wrenched his hind legs thereto, pulled his tail outside, severed it, skinned it, and was biting it off an inch at a time and depositing the pieces in a basket of a tiger's tail.

"A tiger is not. The taste of tiger stew I coveted not. But to humiliate a royal Bengal tiger by biting off his tail, cooking it and eating it in his face; think, think of the glory for France!"

Primitive Time-keeping Methods.

[Pittsburgh Dispatch:] Because of the scarcity of clocks in West Africa events are timed by the regular daily occurrences. For example, a native wrote that she had received news of her sister's illness "a little while before the guinea fow talk;" that is, about 5 o'clock in the morning.

Physicians and Population.

[Pittsburgh Dispatch:] Before the war Germany averaged one practicing physician for each 2000 inhabitants, the proportion being higher in some of the cities and lower in the rural districts; whereas it is said that China averages one physician for about each 100,000 inhabitants.

THE NEW THEORY OF GRAVITATION.

BY WILLIAM H. KNIGHT.

The telegraphic dispatch regarding Prof. T. J. See's new theory of the cause of gravitation will be read with great interest by astronomers and physicists throughout the world. Prof. See has a well-established reputation as an able scientific writer, arrays abundant facts in support of his theories, and commands a fine literary style.

But he is regarded as somewhat erratic often traversing the accepted and so-called established theories of scientific authorities, and not always with success. He is a volitional writer, his latest work being the advocacy of the "captured" theory of planets and satellites as opposed to the Laplace theory of nebular evolution. It is ingeniously worked out, and may possibly account for some of the secondary bodies in the solar system, like the retrograde moons of Jupiter.

The facts regarding the law of gravitation have been, so far as observed since it was enunciated by Newton, in favor of the inflexible support of that law. Many ingenious theories have been promulgated aiming to explain the nature and cause of the force of gravity, but down to the present time all have proved inadequate and unsatisfactory.

The operation of all other laws is modified by circumstances. Take an example in chemistry. Hydrogen has an attraction, or affinity, as it is called, for oxygen, and their union forms the compound water. But some other element has a greater affinity for oxygen, and in its presence the atom of oxygen unclashes itself from the hydrogen atom and sets the latter free. The action of electric phenomena is similarly modified by causes arising in its immediate environment.

But the law of gravitation is invariable and absolutely unaffected by any physical causes that may be brought to bear upon it. Every particle of matter is drawn to every other particle of matter in the universe, and every body is attracted to every other body in a ratio proportional to its mass. The action of chemical affinity and of electrical attraction are constantly modified by local causes, but the attraction of gravitation never.

Prof. See's theory, basing the law of gravitation on electrical attraction, will be given a respectful hearing, but it is safe to predict that it will never be accepted by astronomers and physicists who are authorities in scientific circles. The law of gravitation will continue to remain in the most mysterious force in the universe.

RIPPLING RHYMES. WASTED WEALTH.

A man indignant waxes, when he beholds the waste of coin he pays for taxes, all squandered or misplaced. Out on the western prairies the tiller's wealth is heaved at robins and chickens, and he, of course, is peeved. It goes for pewter bridges, which break beneath a load; it goes for plowing ridges and grading up the road. It goes for bum repairing of highway and of hill, and so we hear him swear, the man who pays the bill. He seeks the county fathers, the men who spend the change, and vexes them and bothers their souls with questions strange. "Why don't you grade the ridges with permanent intent? Why don't you build us bridges of granite or cement? We all would be in clover if lasting roads were made, but over, still, and over, you plow and scrape and grade, you make your culvert wooden, and build your bridge of tin; contractors have a puddle, the strongest wading in. But useless is his kicking, the poor taxpayer; man; the county dade are sticking to their old futile plan; still building bridges rotten, and roads that wash away, all but the bills forgotten, the bills the workers pay."

WALT MASON.

Has a Preference.

[London Opinion:] "Whisky, my friend, has killed more men than bullets." That may be, sir; but, heh-heh, I'd rather be full of whisky than bullets."

RUSSIA'S RESOURCES AND REVERSES.

BY WILLIAM E. LINGELBACH,
 Professor of Modern European History,
 University of Pennsylvania; President
 of the Geographical Society of Philadelphia.

RUSSIA'S stupendous losses create an intensely critical situation for the entente powers. If the Germans could throw against the west their armies of the east, it would probably be fatal for the allies.

Russia's immense population of 175,000,000 can furnish an inexhaustible supply of men; but they must be equipped and, unless facilities for equipment be rapidly increased, it is doubtful whether the Grand Duke Alexis can again take the offensive, or even defend himself adequately.

Russia, whatever means she may employ, cannot herself supply the equipment. She must buy it abroad, and pay for it. The crucial question becomes: Can foreign manufacturers be convinced of Russia's ability to pay?

Has Russian finance failed? With resources so great that they cannot be more than estimated, her credit should have been exceptionally sound.

Covering as she does one-seventh of the land surface of the earth, the natural wealth of Russia seems inexhaustible. She has vast supplies of coal, iron, lead, copper, gold, platinum and petroleum. Her supply of game is large and valuable, while her mighty rivers are well stocked with fish. She has immense forests, wide-stretching pasture lands, and millions of acres of fertile soil producing grain, flax, hemp, cotton and sugar in ever-increasing quantities.

In recent years the economic development of Russia has been exceptionally rapid and sound. Good harvests have been combined with an extraordinary increase of manufactures and mining. In five years the state revenues increased over \$225,000,000 in spite of disturbing foreign conditions, especially those created by the Balkan wars. In August last Russia had the largest gold reserve of the world, nearly \$1,000,000,000.

In face of this, rumors of refusal to take on Russian orders except for cash, or of delayed shipments of guns and munitions for the same reason, seem strange—the more strange after the assurance of credit extended to her by both France and Great Britain. Nevertheless difficulty has been experienced; the Russian rouble has declined sharply; exchange has been so heavily against Petrograd that she cannot buy save at very serious loss.

First among the reasons for it appears the effect of the abrogation of the law providing that the gold security could not be less than 50 per cent. of the note issued and the authorization of paper to the amount of more than a billion roubles. This reduction of the gold margin struck seriously at confidence in Russian exchange. To this was added the knowledge of the enormous loss of revenue through the suppression of the trade in vodka. The shavers are closed on all the rouble shops. The reduction of the gold margin struck seriously at confidence in Russian exchange. To this was added the knowledge of the enormous loss of revenue through the suppression of the trade in vodka. The shavers are closed on all the rouble shops.

Russia figures in the world's markets chiefly as a producer of foodstuffs and raw materials. In 1912, of her total exports to Europe, 92 per cent. were agricultural, mainly foodstuffs. A memorandum to the Russian budget of this year says: "The well-being of the Russian national economy depends to a large extent upon the disposal of these products." But just as the crops of 1914 were being harvested, the government required the use of the railroads for mobilization. Archangel, the only open port of Russia in Europe, freezes up by the end of October. The mining of the Russian coast made more difficult traffic through Sweden and the Baltic. Finally the entrance of Turkey into the war closed to Russia the mouth of the Black Sea. There is no outlet for the vast overflow of Russian foodstuffs. Even in distant Siberia they speak of the "returning tide of but-ter." At home the cost of bread for the vast population, still very simple in its needs, has been reduced, but abroad Russia has been compelled to buy on credit. She is the natural bread producer of Europe. She cannot now exchange her wealth of her land for much-needed supplies, whether of medicines, of munitions, or of machinery necessary for manufacture, agriculture or mining.

When Napoleon was carrying on his ruthless war with England, he declared he would bury her under the superabundance of his own products. What Napoleon tried to apply through his continental system to England's manufactures is threatening Russia as regards her natural products.

The serious danger of this economic situation is evident, but the tremendous significance of the need of alleviating it becomes apparent only when we consider that it is the basic reason for the expedition against Constantinople and the Dardanelles.

That enterprise, so doubtful from the beginning, and regarded for some time past as the great failure of the first year of the war, was dictated by Russia's economic necessity. Both English and French strategists, as well as some of the ablest diplomats were against it. The former urged the need in France and Flanders. The latter feared the results of interfering into the war already so gigantic, all the perplexing problems of the Near East. But the need of the eastern ally was great, and the prize, to whomsoever it went, large. The forts that block the passage of Russian wheat are hard to batter down and as the weary months pass without success old fears and ambitions reappear.

Mr. Bryan Identified. Washington officials just now are relating a Bryan story with a good deal of glee. A mass meeting in Nebraska, at which Mr. Bryan was to speak, was presided over by a man with whom the former secretary had crossed swords several times. There was a feud on between the two, and when Mr. Bryan ascended the platform the presiding officer paid no attention to him. At last it came time to introduce Mr. Bryan and the chairman walked over to him and blandly inquired:

"What is your name, please?"

"William Jennings Bryan."

"Bryan, ah, yes," said the chairman, "and what do you do, Mr. Bryan, sing or speak?"

A Man of Ability.

[Christian Intelligencer:] A correspondent of the New York Sun quotes a remarkable tribute of a negro preacher to a white preacher who had consented to occupy the black brother's pulpit one Sunday. He said: "Dis noted divine is one of de greatest men of de age. He knows de unknowable, he kin do de undoable, an' he kin onscrew de onscrutable!"

MERRY INVASION MADE BY TEXANS.

"TIMES" BUILDING RESOUNDS TO MUSIC AND CHEER OF EL PASO CLUB.

The "Queen Sabre" Club of El Paso, Tex., led by Fred McJunkin, commander-in-chief of the Texas forces at the grand reunion, marched through the Times Building last night, stopping in the editorial rooms, where they delivered a wonderful serenade. It was wonderful from any point of view, but regular Texas enthusiasts began to end.

Led by their special band, the Texans paraded along Broadway to the Times office. Entering the building, they marched up the stairs, discharging elevators and other trivial things. When the band arrived in the editorial room on the third floor they were a bit blue, but manfully continued to play, "I Love You, California."

When the Texans had all arrived the band stopped playing. Led by V. R. Andreas, better known as "Little Tex" to his friends at St. Vincent's College, where he attended some years ago, the Texans gave their club yell, it was some yell. Then Gen. McJunkin ordered a song. This was forthcoming.

They had a royal good time, and so did the employees of the Times. Shouting their invitation to come and see them in Texas, the visitors departed, to parade some more through the main streets of the town.

ASK COURT TO ADJUST TITLES.

BALDWIN HEIRS WANT RANCH BOUNDARIES DEFINED.

Bring Four Suits to Quiet Title. Hope to Settle Difficulties with Smaller Land-owners Amicably. Because of Inaccurate Surveys Titles Have been Clouded.

Clara Baldwin Stocker and Anita Baldwin, who are heirs to the ranch lands situated along the boundary line between the old "Rancho La Cienega" and the "Las Cienegas Rancho." The object of the suits is to determine definitely the true boundary line between the two ranches.

Mrs. Stocker and Mrs. McClaughry, as successors in interest of E. J. Baldwin, own the legal title to the "Rancho de la Tijera," and consequently all of the land south of the north line of that rancho. On the other hand all land north of the north line of the Rancho de la Tijera is a part of the "Las Cienegas Rancho" and is owned in many private holdings.

For many years questions have arisen as to the true boundary line between the ranches, due to the inaccuracy of the early surveys. Because of this, the title to all lands in the vicinity of the line is clouded and uncertain and no title insurance company will insure a title.

The property involved is increasing in value and it is desired that the true boundary be definitely determined and all uncertainties with respect to the title be removed. Many of the persons who are joined in the suits have not made any claim to the property for years and are joined merely because early records indicate that they may have at one time claimed an interest in the property. It is to the common advantage of all parties concerned that the questions involving the boundary line between the two ranches and the consequent title be definitely determined, and it is therefore expected that most of the parties involved in the suits will adjust their differences without litigation. It is only in the event that attempts to reach an adjustment of differences without litigation fail that the suits will be pressed.

The attorneys for the sisters are Edwin McNab and Garrett McEnery of San Francisco.

COLORED DIVINE COMING.

Dr. C. T. Walker of Augusta, Ga., known as "The Black Spurgeon," will reach Los Angeles August 8 and will make his first appearance at the First Baptist Church. Then for ten evenings he will deliver addresses to the colored citizens of Los Angeles in the People's Auditorium, Central avenue and Fifteenth street. Dr. Walker has been invited to Los Angeles by the People's Chautauqua, an organization fostered and promoted by the Providence Institutional Church, of which Rev. Alfred C. Williams is pastor. A chorus of 200 negro singers and an orchestra of fifty pieces will furnish the music during the sessions of the Chautauqua, and prominent speakers from the East will take part in the program.

Beautiful the Complexion. A priceless preparation for beautifying the complexion that will not cause the growth of hair. At Druggists and Department Stores.

Gouraud's Oriental Cream. We will send a complexion cream and book of powder leaves for \$1.00 to cover cost of mailing and wrapping. FRED. T. HOPKINS & SON, Fresno, 21 Grand Jones St., New York City.

GOVERNOR STUART HAS A BUSY DAY.

RESEMBLANCE TO TAFT THROWS SURPRISE INTO RANKS OF WELCOMERS.

When Gov. Henry Carter Stuart of Virginia stepped off a train at the Southern Pacific station yesterday morning several members of the Chamber of Commerce welcoming party had to rub their eyes for the second look.

In the first place, Gov. Stuart more resembles the southern statesman of the cartoon page than a high hat looks like a fedora. In the second place, he looks like Gov. Ralston of Indiana, who was here two weeks ago, which means that he also pronounced resembles former President Taft.

"Why, the first words that came to my lips were, 'Hello Bill Taft,'" said Secretary Wiggins of the chamber. Gov. Stuart's arrival was the signal for the unfolding of a programme of entertainment that fairly assailed in the middle. It was an effort to make Virginia's chief executive feel at home, fete him, and show him the country all within the compass of one day with the big, affable statesman and business man willing, on one condition—that he be shown some of Southern California's far-famed good roads.

This request was complied with by the Chamber of Commerce conducting him on an automobile trip that included a good deal of the country to the west of the city, followed by luncheon at the Beverly Hills Hotel.

Gov. Stuart was the guest of honor last evening at a dinner given by the Virginia Society at the Sierra Madre Club, the same place that the Richmond Light Infantry Blues Battalion, who are due this morning from San Francisco by special train, will be entertained at a ball tonight.

Stuart left at 12 o'clock last night for San Diego, where he will spend a day. The Richmond Light Infantry Blues are due at 6 o'clock this morning by special Pacific Electric cars for Universal City, where they will be entertained at luncheon, returning here at 3 o'clock. The Blues will make their headquarters at the Lanker-shim.

FINANCES ENTER "FAKE" BABY CASE.

ALLEGED FATHER TELLS ODD METHOD OF BORROWING FROM WOMAN.

Herbert E. White, a money lender, who is alleged to be the father of Mrs. Allie E. Hamill's child, which the city health department says never existed, confessed on the witness stand in Justice Brown's court yesterday that he had engaged in several financial deals with Mrs. Hamill, one in particular attracting attention during his recital.

White asserted that when he was "hard up" he asked Mrs. Hamill if she had any money and she said she had friends on Wilshire boulevard who had \$5000 she could get, providing she could show she had some money coming to her. White suggested, he said, that he give her a note for \$1000 and she show it to her boulevard friends, getting their real money.

Later, White said, Mrs. Hamill used him for the \$5000 named in the note and got judgment, although he said he had a receipt for the amount.

White's financial transactions with Mrs. Hamill became the feature of yesterday's session of the preliminary examination of Mrs. Hamill on a charge of filing a false certificate of birth. It is charged that she filed the certificate to lay the foundation for a charge against White and that the baby referred to in the certificate was never born.

Mrs. Hamill yesterday reiterated her promise to produce the baby "at the right time."

OPPOSES LEASING OF CEMENT PLANT.

PROTEST TO SUPERVISORS IS MADE BY ATTORNEY OF BUSINESS BODY.

Capt. John D. Fredericks protested to the Board of Supervisors yesterday against the leasing by the county of the Monolith cement plant, built and owned by the city. The Supervisors had already taken action, signing and

executing the lease and taking over control of the plant.

Capt. Fredericks appeared in behalf of the Merchants' and Manufacturers' Association and declared that it is unconstitutional for the county to operate the cement plant and to let the open market in competition with private concerns.

Chairman Fredericks suggested that while Capt. Fredericks was District Attorney, the Supervisors were advised by that office, then legal advisor of the county, that it could legally buy rock quarries and operate them, not only for the county's use but for general consumption.

SPEAKER CLARK DUE HERE TODAY.

WILSON CLUB WILD ENTERTAIN HIM—STAY TO BE BUT A FEW HOURS.

Entertainment arrangements are being hastily made by the members of the Woodrow Wilson Club for the reception of Speaker Champ Clark, who will be the guest of that club this afternoon and evening. Speaker Clark will arrive at 3:30 o'clock this afternoon and will leave for San Francisco at 11:30 tonight.

There will be an informal buffet supper in the Alexandria ballroom at 8 o'clock, when Mr. Clark will deliver a short address. All are welcome.

The Reception Committee includes Dr. R. W. Hill, A. M. Stephens, Judge Trimmer, Mrs. Force Parker, Mrs. W. C. Tyler, Mrs. A. H. Killemer, M. F. Ihmsen, J. P. Carter, W. H. Joyce, Mrs. Norman La'kland, B. F. Groves, Mrs. James Westpheling, Mrs. W. H. Housh, Ben Goodrich, Postmaster Brown, Miss Lucetta Del Valle, Miss Musa Rawlings, Miss Paula Dunning, H. H. Cotton, J. E. Brokaw, Mrs. E. E. Wood, Mrs. McMahon, Mrs. Robert Holmes, Mrs. C. McCann, Guy Barham, B. F. Biedock, Milton K. Young, Albert Chappell, Mrs. Guy Barham, Mrs. M. F. Ihmsen, Mrs. T. T. Loy, Mrs. J. Henry Stewart, Miss Mary Foy, Miss Stella Killemer, Miss Mary Helm and Mrs. T. T. Higgins.

LONG TIME BETWEEN.

Forty-one years separated. No, it is not cause for a divorce action in this case. It is only the period of time between the day that Fred C. Hand of the Committee of Charities of the Grand Lodge, left his brother, H. W. Hand, now of Sacramento, and yesterday, when they were reunited. The Hand family is one of the oldest in the Grand Lodge, Pa., where the former still resides.

ANGELES LODGE BROS
HILL TEAM EXHIBIT
FINE PACE

Al-Eik band of Los Angeles, No. 39, accompanied by some of the local lodges, made an outdoor last night by the Angeles lodge, and the band played last night outside the theater and performed their music to the fine music of the band.

When the serenades began, the crowd stood and listened, and the music was so good that it was impossible to get into the theater and give the impression of dancing.

The serenades ended in a waltz, and the band played a fancy-drill, and the music was played by all who were present.

MELVILLE LONG STAGES A TERRIFIC COME-BACK.

EASTERNERS OUT OF LUCK.

Washburn Falls Before Mel Long's Great Speed.

Also Loses Doubles Match with Champion.

Gardner Takes a Set from McLoughlin.

(BY A. F. NIGHT WIRE.)
SAN FRANCISCO, July 12.—The Harvard representative of the eastern team of invaders of the Pan-Pacific International Exposition championships came a cropper today on the courts of the California Lawn Tennis Club, when the doubles team of Watson M. Washburn, entered in the singles, were eliminated from further play.

A COME-BACK.
The first to succumb was Washburn. Dr. Melville Long, former Pacific Coast champion, and Davis Cupstar, who has been out of active competition for the past three years, won in straight sets, 7-5, 6-2. With the score five games to three against him in the first set, Long, by magnificent uphill work, won the next four games and the set.

THE DOUBLES.
The Harvard doubles team, made up of R. N. Williams, the national singles champion, and Washburn, the next to fall by the wayside. They were beaten 6-4, 3-6, 6-8 by J. C. Rohlf of this city and Lawrence Curtis, also of Harvard.

Washburn, who is ranked ninth among the tennis players of this country, was clearly off his game and it was due largely to his poor play that the easterners were defeated. Time after time throughout the match he drove easy returns either into the net or out of bounds.

A SURPRISE.
Another of the day's surprises was the showing made by Carl Gardner of San Francisco against his fellow-townsmen, Maurice McLoughlin, the former national champion. McLoughlin, while he won the first set by a score of 6 to 1, was forced to deuce-vantage games in the majority of instances. With the score 5 to 3 against him in the second set, Gardner, by consummate play, pulled the next four games out of the fire and took the set, 7-5. With the stands loudly applauding him, Gardner fought desperately to keep up with the former champion and forced him again into many deuce-vantage games, but he was unequal to the task and the final set went to McLoughlin, 6-3.

TOO GOOD.
G. M. Church and Dean Mather, the Princeton doubles team, had no trouble in disposing of G. C. Cragin and R. W. Maples in straight sets, allowing the latter to take only one game. The final score was 6-0, 6-1.

Results:
Men's singles—M. H. Long defeated W. M. Washburn, 7-5, 6-2; Willis Davis beat R. F. Norton by default; R. J. Greenberg beat D. Harrar, Jr.

(Continued on Third Page.)

DE PALMA GETS STUTZ RACER.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
CHICAGO, July 12.—Ralph de Palma, winner of the last 500-mile race at Indianapolis, today announced that he had leased the Stutz that Howard Wilcox drove in the Chicago automobile derby on August 26. He obtained an option on the car more than a week ago, and as soon as the deal was consummated entered it in the Chicago Automobile Club trophy and the Elgin National to be run over the famous Kane county course on August 20 and 21. De Palma did not nominate a driver.

The announcement that De Palma had closed a deal with Stutz was a big surprise to the Chicago motoring fans. It had been understood that Harry Stutz would continue to campaign the cars the remainder of the season.

Now it generally is believed that Stutz has determined to rid himself of a team. Cooper already has one of the cars on the coast. De Palma has the second and the third is at Indianapolis.

MAJORS COPY COAST'S LAW.

(BY A. F. NIGHT WIRE.)

NEW YORK, July 12.—At a special meeting of the National League called by President Tamm at the league's headquarters here today, the rule making the player limit twenty-one for each club, which remained in abeyance since it was proposed last December, was unanimously adopted. All the club presidents were present.

No player under suspension will be included in the list of "disabled players" for whom other players can be substituted, but the rule has been made sufficiently elastic to enable a club not to be crippled in playing strength through any of its team members being injured or rendered useless, from a playing standard through illness.

A suspended player must be counted in the twenty-one limit and the only recourse for a club in such a case is to appeal to the National Commission for his reinstatement. The case of Catcher Larry McLean of the New York Nationals was discussed in connection with this rule.

Following is the new rule governing the transfer of players to the disabled list:

(1) Request to have player's name transferred from the active to the "disabled" list shall be certified to the president of the league by the president of the employing club within forty-eight hours after injury occurs and such request shall state the nature of the player's disability and when and where incurred.

(2) A player placed on the "disabled" list will not be allowed to participate as a player in a championship game for at least ten (10) consecutive days, including the day of his injury. During such period, however, the player will be allowed to act as coach.

(3) The names of all players certified as "disabled" shall be officially bulletined to the club president.

Bring 'Em Down.

TRAP SHOOT AT VENICE TODAY.

SOME OF BEST SHOTS IN THIS COUNTRY ENTERED.

To be Three Days of Shooting. Ten Events on First Day of Two Days Each, Jack Rabbit System. Shooters Practice at Venice, Find Trouble in Breaking Pigeons.

Trap shooters from all over the United States, some of them America's best shots, will shatter the clay pigeons at Venice today. The shoot will commence at 9 o'clock sharp and take the rest of the day. At night there will be an after-dark shoot for the championship of the world from the Venice pier.

Both today and tomorrow's shoot will consist of ten events of twenty targets each, Jack rabbit system. Ten cents will be paid back for every target broken. The balance of the money will be left in the pot, together with the added money, and divided 49-50-50 system.

An Interstate Association trophy will be presented to the shooter making the high score on 200 targets and another to the man making the second highest score. In the case of a tie there will be a shoot off at twenty targets for possession of trophies. On the third day the trophy will be for the high score on 100 targets. And in addition there will be the Los Angeles handicap championships. It will consist of 100 targets, from 16 to 22 yards, high guns winning.

There were a good many shooters out practicing at Venice yesterday. They crabbled at the "home-made" pigeons. The Venice clay is harder than they have been accustomed to shoot at. They had a difficult time breaking the pigeons.

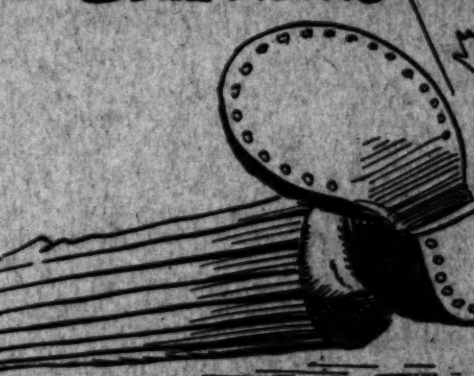

MANAGERS PICKING PLAYERS BLUFF.

STARS FORCE THEMSELVES ON BOSSES; MANY SLATED TO GO AT ONE TIME.

There's more or less bluff about this managerial-perception stuff. About as many good ball players force their bosses to use them as are picked from the mass by these supposedly lynx-eyed leaders. Even Tyus Cobb, it will be recalled, came close to figure in a trade with New York at one time early in his career. Now comes the case of Howard Shanks of Washington, superb ground-ball handler, among the outfielders in the American League, who made his first error of the year on Tuesday.

For two years Griffith has been buying and digging up gardeners to displace Shanks. The latter has driven them all to the bench. And at the present time, in addition to his holding value, he is leading his team at bat, hitting around .275. Shanks is the most valuable player on his club right now. Yet they got Acosta and Ronsau, Connolly, now of Boston, and Connolly, late of Georgetown, and maybe some others, to displace him.

SWIMMERS ARE AT EXPOSITION.

DUCKS FROM EASTERN STATES AND HAWAII READY FOR FRIDAY'S MEET.

(BY A. F. NIGHT WIRE.)
SAN FRANCISCO, July 12.—Members of the Illinois Athletic Club swimming team of Chicago, Arthur McAlenon of New York, Arthur Faraday of New Orleans, and other swimmers of prominence arrived here today to compete in the Pan-Pacific Exposition swimming championships Friday and Saturday.

Duke Kahanamoku and six other swimmers arrived from Hawaii yesterday.

BASEBALL PLAYER DIES FROM BLOW.

(BY A. F. NIGHT WIRE.)
SAN FRANCISCO, July 12.—Oscar Williams was felled yesterday by a wildly pitched ball, which struck him on the temple while at bat in an amateur baseball game. He revived under emergency treatment and walked home. He became unconscious early today and died soon afterward. This is the first fatality in baseball here this season.

FLY-HARASSED BOVINES CHASE SCARED MATADORS.

CHARLIE DUNN, the owner of the bulls, expressed the sentiment of every one present at the stadium yesterday in two graphic words: "Oh, hell!"

Geraldine Farrar saved Saturday's performance by her presence and the staking of "Carmen" W. D. Griffith, the famous producer, gave Sunday's an excuse by attending. But yesterday's had not one redeeming feature. It did not have what was advertised for it, and what it had was a frost. It was simply "bull."

The bullfights were so pitiful that they were not worthy of the word "farce." The crowd wisely left before the performance was half over.

The bulls had to be chased into the ring by a man on horseback. They showed as much life as old milky cows. They simply blinked at the sun and switched the flies off their backs.

But the bulls have a good alibi. The breeders did not give them a chance to fight. The brave matador assumed a picturesque pose, safely behind one of the green fences, and held it all afternoon. His helpers took good care to flap their red capes when the bull was looking the other way, and to run when he cast an occasional glance in their direction.

The breeders did not want to fight. When Dunn threatened to turn a fierce bull into the ring, a frightened Mexican came running to him. He gasped that the matador did not want that one, but a big, slow bull. It was then Dunn gave utterance to his famous speech.

Mack Sennett and his famous Keystone players failed to show, despite the advertisement of the management. In their places were some \$2-a-day supers dressed up like cops and a Mexican in the ring made up in rank imitation of Ford Sterling. His antics were as funny as a broken crutch. He did all his alleged humor behind an animal Dunn called a "comie," not a bull.

The only person who profited by yesterday's performance was the crowd, which will be present and lend a hand either as referee or second to the fighters are the following: Roscoe Arbuckle, Fred Mace, Ford Sterling, and Charlie Murray, Willie Ritchie, Fatty Voss, Jack Conway and Hank Mann. The latter will referee the contest between the two colored boxers, which will be some bout, aided by the antics of Mann. Mabel Normand may be in Dolan's corner, and there has been a special section set aside for any ladies that might care to attend.

The following boxers will positively appear: Frankie Dolan of the L. K. O. studio vs. Jimmy Aronay, Harry Atwood vs. Walter South, Harding Chico vs. Ralph Lincoln, Darry Lyons vs. Joe Connolly, and Jimmy Doyle vs. Charlie Dalton.

BOXING BOUTS AT VERNON TONIGHT.

SMOKER FOR BENEFIT OF ELKS WHO WISH TO GET SOME OLD-TIME SCRAP.

Tonight's the night when the visiting Elks who like to witness boxing contests will visit Jack Doyle's training quarters. A Vernon Athletic Club smoker has been arranged with the special idea of catering to the "Hello Bells."

Not only will they witness a good card of boxers that represent Southern California, but they will have a chance to rub elbows with their favorite movie comedian, who has handed them laughs from one time to another.

Among the movie comedians that have promised to be present and lend a hand either as referee or second to the fighters are the following: Roscoe Arbuckle, Fred Mace, Ford Sterling, and Charlie Murray, Willie Ritchie, Fatty Voss, Jack Conway and Hank Mann. The latter will referee the contest between the two colored boxers, which will be some bout, aided by the antics of Mann. Mabel Normand may be in Dolan's corner, and there has been a special section set aside for any ladies that might care to attend.

The following boxers will positively appear: Frankie Dolan of the L. K. O. studio vs. Jimmy Aronay, Harry Atwood vs. Walter South, Harding Chico vs. Ralph Lincoln, Darry Lyons vs. Joe Connolly, and Jimmy Doyle vs. Charlie Dalton.

"EITHER CARLISLE OR KANE WORTH MORE THAN GARDNER."

"I WOULDN'T trade either Carlisle or Kane for Gardner," said Ed Maler last night. Then he added, "Make that as strong as you like."

So another reported dream was knocked in the head—a dream to the effect that both of those Tigers were to be given for the Oakland utility man.

"It's news to me," said Doc White. "I haven't read the story. But if Mr. Maler is making the trade, he has not let me in on it. That is something he would not do."

But one Tiger goes this week. Ellis Johnson, the injured pitcher, is to be taken off the disabled list. That action will bring the Vernon baseball club one player over the eighteen-man limit. Neither Ed Maler nor Doc White was ready to say last night who the unfortunate would be.

Surging Red Sox Climb Full Game Closer to Rowland.

DODGERS JUMP ON CUBS AGAIN.

Makes Four Straight Games from Leaders.

Eighth Consecutive Win for the Superbas.

Smith Scatters Hits and Also Helps with Bat.

(BY A. P. NIGHT WIRE.)
BROOKLYN, July 12.—The Superbas made it four straight wins over the Chicago Cubs in their eighth consecutive victory by winning today's game, 3 to 2.

Smith kept the hits well scattered. Wheat's error letting in Chicago's first run in the fourth, Myers prevented a tie in the eighth, when his throw from center caught Murray at third after Chicago had bunched two hits and a pass.

The Cubs used three pitchers. Smith helped to win his own game by driving the ball to the right field wall for two bases, scoring Stengel and coming home himself on Myers's single. The score:

Not By Gale.

AT THE STAGE DOOR

Margaret Blinn is to appear in Los Angeles in "The Lie" next fall. This is the play in which she made so great a success in New York last season.

Wild West Stuff.

They are taking wild animal pictures out at the Universal nowadays in the arena without the use of cages. Rex Russell and Fred Granville are on the dangerous job this week.

Good for Bebe.

Bebe Daniels, 14 years old, who plays the girl opposite George Gebhard in James Younger's latest feature, "The Savage," is the youngest of the screen's leading ladies. Five years ago when Mr. Younger was sent from New York as special director for the New York Motion Picture Company, he wrote many child stories around little Bebe. Bebe was at that time playing Little Lal in "The Squaw Man" with the Famous Players.

Her stage experience has been extensive, her career commencing at the early age of ten weeks, with the accompaniment of her father and mother in a variety of the comedy "Jane," in which she toured the States. She has since appeared with William Desmond and Blanche Hall, and with Thelma Magrann, Lillian Abington, Amelia Gardner, Harry McArthur, Lewis Stone and many others.

Night Fantasia.

Mrs. Benjamin Scovell will dance at the French celebration of the Fall of the Bastille on Wednesday afternoon at Shrine Auditorium. Her dance will be "The Mountain Sprites."

Baby Deer.

Baby Marie Kierman, the tiny film actress, has been made an Elk, or Elk-ess, by Chief Sebastian. She will ride in the Wednesday parade with him.

Way West.

Woot's Manager Drown of the Orpheum please take up a subscription and buy a new piano. Or won't he buy one on the installment plan, a dollar down and a dollar a year? The present piano deserves to be pensioned.

Red Sea Waves.

Archie Eley and Carl Walker went fishing last week on Walker's lot at San Pedro. Panagoras lobby will be decorated with floral tributes, and the friends will now have new fish stories to beguile their leisure hours.

Compliments.

John Emerson's play, "The Conspiracy," will be put on at the Burbank next Sunday afternoon, with John Emerson and Marjorie Rambeau in the leading roles. Mr. Emerson played "The Conspiracy" successfully for a year in New York and a year in London.

Fetal.

Frances White of "So Long Letty," purchased a high-powered Cadillac last week and lent it to her father, Frederic Capell, last Sunday. Capell met with an accident at Venice, taking a wrong turn suddenly, which landed him up against a house. He was quite seriously injured.

With the Yeggmen.

Burglars entered the residence of Assistant Manager Walter Smith of the Hippodrome yesterday afternoon, and for the first time since the theater opened "Smithy" missed the opening matinee on account of rushing home to take an inventory of his worldly goods.

The first act was just over when Smith received a phone call from Mrs. Smith, from their residence on West Thirty-second street, advising her husband of the robbery, which had been committed in the brief hour during which he was visiting a neighbor. A child's basket, a gold watch, some jewelry and some cash form part of the loot. Smithy, however, is one of those optimistic ducks. "I'm glad they didn't wait until Tuesday and rather in my pay check," was his comment as he delegated the task of checking up the opening show to the head usher and started home to inspect the "loot."

Not Right One.

Anonymous announcements have Maud Allan, the celebrated interpretive dancer, presenting her famous "Anitra's Dance" from Grieg's "Peer Gynt Suite," this week at Tally's. What Miss Allan actually gives is a very beautiful impression of Tchaikovsky's "Dance Arabes," whose languorous oriental atmosphere is particularly appropriate to her photo drama, "The Rug Maker's Daughter."

CHRISTIAN ENDEAVORERS.

Resolutions that the Church Workers unite to Abolish Saloons at Home and the War Abroad.

CHICAGO, July 12.—Resolutions demanding that all church workers unite to produce a saloonless United States of America, as well as peace among the belligerent nations of Europe, were adopted by the World's Christian Endeavor convention at its final session here tonight.

Representatives of fourteen foreign countries, including delegates from five of the warring world powers, expounded Christianity and world peace from the same platform in the afternoon.

Extension of Christian Endeavor work was the chief topic of the day. Although no duty was set from over the suffrage proposition, the Resolutions Committee decided not to incorporate the suffrage clause in the resolutions.

New York City drew the 1917 meeting, and Winnipeg, Can., was selected for the 1919 convention.

The condition of E. E. Clark, head of the Christian Endeavor Union, whom an attack of typhoid fever kept from attending the convention, is grave, according to a telegram received here today from Mrs. Clark.

The telegram was dated Sagamore Beach, Mass., and was addressed to H. H. Van Meter of this city.

"Mr. Clark, when the fever subsided, gained for a few days," the telegram said, "and we were very hopeful, but a serious complication has put him back so much that we are very anxious. A slight improvement today over yesterday gives us courage, but his condition is very serious still."

Elsie Ferguson then and now.

Noted actress as she appeared last night in the first set of "Outcast," the gripping social problem play at the Mason, and above as seen in a small part in a musical show in which she visited this Coast for the first time some fifteen years ago. Her rise to the ranks of a star of the first magnitude has been a striking one.

CHAMPION BALL TEAMS WRECKED.

FEW WORLD SERIES MEN STILL IN BIG BRUSH.

Managers Get Rid of Stars Soon After Their Big Year—Giants, Athletics, Red Sox, Cubs, Tigers, Pirates All Follow Same Policy. Mathewson and Schulte Stick.

What great changes can come in a few years in the makeup of pennant winning ball teams!

Chris Mathewson is the only survivor of the 1905 Giant machine that battled with the Athletics in the world series of that year. "Wildfire" Frank Schulte is the "East Mohican" of the 1907 Cub machine.

But one can move a few years nearer and find that the wrecking of more modern baseball machines has been almost as complete.

Heine Zimmerman, Schulte and Jimmy Archer are all that is left of the 1910 pennant winning club. Amos Strunk, Ira Thomas and Jack Lapp are the only four men still on the Athletics roster who helped to win the 1910 world series for the Athletics.

Just five men of the twenty odd players who battled under the Tiger standard in the 1909 world series are still on the Detroit payroll. Those men are: Ty Cobb, Sam Crawford, Oscar Stanage, George Moriarty and Orie Bush.

The Pittsburgh Pirates beat the Tigers in that series and only three members of the 1909 Pirates are still in the employ of Barney Dreftina. They are: Honus Wagner, "Babe" Adams and Catcher Gibson.

Great changes have come in the makeup of the Red Sox team in the past three years. When the Red Sox defeated the Giants in that memorable eight-game 1912 world series the team public figured that the Red Sox machine was one that would be kept intact for many years to come.

But it hasn't been. Practically half of the 1912 Red Sox have since been sold, traded or released. Jake Stahl, who manager the team, was "fired" the next season. Heir Terkes, who covered himself with glory during second base, is now with the Peds. Neal Ball and Clyde Engle, utility men, were let out. Pitchers Hall and O'Brien were released, as was Pitcher Hugh Redient, who now is in the Federal League. Catcher Nune-maker was sold to the Yankees.

Nine of the Giants who played in that 1912 series have passed along. Some are in the minors; some are with the Peds and others have been sold or traded.

Only one man who battled for the

YACHT RACE TO BE HELD OFF LONG BEACH FRIDAY.

Sunset and South Coast Crafts to be in Sail for Cup Offered by B.P.O.E. Entertainment Committee—To Cruise to San Diego for Regatta—Last Week of the Month to Have Special Programme.

BY E. D. SEWARD.

(SPECIAL CORRESPONDENCE.)

LOS ANGELES HARBOR, July 12.—The yachting fans of Southern California will find all the excitement they desire if they follow the cleanest sport on earth for the next two and a half weeks. And here is where they can get the excitement.

On Friday afternoon off Long Beach the local yachts will compete for cups offered by the Entertainment Committee for the B. P. O. E. Besides the yachts of the Sunset Yacht Club, several of the yachts of the South Coast Yacht Club have entered including the sloops Columbine and Vito.

TO SAN DIEGO.

Immediately after the race on Friday the Columbine and Vito will sail for San Diego for the regatta which will be held off Coronado.

Accompanying them will be the Viking III, the auxiliary ketch.

Boat and the auxiliary yawl Arrow owned by Capt. Albert Sepulveda. Capt. Sepulveda also owns the sloop Columbine and hopes to win the Hotel del Coronado Cup again this year.

Having annexed the cup at Coronado in a close race in 1912, the Columbine lost last year's race. Should she prove a winner this year the cup will permanently belong to Capt. Sepulveda.

The programme at San Diego includes a reception and dance for visiting yachtsmen on Monday, July 19, Lipton cup race on a twelve mile course of Coronado on Tuesday, July 20 with a dinner and dance in the evening. On Wednesday, July 21 the race for the Hotel del Coronado cup will be held, and an entertainment again given in the evening. On Thursday, July 22, the yachts will race for the San Diego Yacht Club cup, smoker at the clubhouse will follow in the evening.

On Friday, July 23, in two classes the racers will compete for honors in a race around Coronado. The John J. Herman and the C. W. Stone trophies being the prizes offered. In the evening at a farewell banquet and formal dance the prizes will be awarded.

RACE BACK.

On Saturday, July 24 the yachts will all start in a race back to Los Angeles Harbor, the San Diego yachts competing with the local racers.

The week from July 24 to July 31 will be a busy one for the South Coast Yacht Club. A series of regattas of races and events for the entertainment of the San Diego Yacht Club is now being prepared and will be announced later.

On Saturday, July 31 the racers will compete in the annual race for the Los Angeles Times cup. The sloop Vito is the defender. The course will be the eighteen-mile one around Point Vicente buoy. And in the evening a farewell dance will be given at the clubhouse. It will be a double farewell, for on the morning the San Diego visitors will sail for Avalon while the South Coast sailors will start on the hard race to San Francisco.

GROWS AHEAD.

Interest in this big event grows apace. The entry received today for the schooner Edris, owned by Capt. John Barnson adds materially to the list of entries which now numbers seven. The Edris will fly the burgee of the S. C. Y. and will be scratch yacht with Vito. It is of seventy-six feet. The Yankee Girl owned by Commodore Alex J. Mitchell of the Sunset Yacht Club will receive an eight-hour allowance from the Chicago Feds. The Yankee Girl measures sixty feet racing length. The other entries of the South Coast Yacht Club are Viking III, Minerva, Trojan, Seamore and Sitwah.

THE WEATHER BACK EAST.

The Whole Middle West is suffering, but in the Atlantic States it's somewhat cooler.

CHICAGO BUREAU OF THE TIMES, July 12.—Hotter weather prevailed over all the Middle West today, but Eastern States were somewhat cooler. Heavy rains fell in Michigan and Nebraska, Omaha reporting 2.34 inches. Iowa, South Dakota and Missouri also had rain. Chicago's temperature was 83 degrees, lower than the Ohio Valley. Several Wisconsin and Michigan "records" reported 84 degrees, the same figure as Winnipeg. Other temperatures:

ALL QUIET IN HAITI.

Admiral Caperton Reports that Few Shots are Being Fired; Americans Still Ashore.

(BY A. P. NIGHT WIRE.)

WASHINGTON, July 12.—Rear Admiral Caperton, commanding the cruiser Washington at Cape Haitien, Haiti, reported to the Navy Department tonight that quiet had been restored there and the French cruiser Descaartes, which landed marines several weeks ago to protect foreign interests, had left port.

A few shots were fired by the revolutionists near Cape Haitien Saturday night, the admiral's dispatch said, but the French dispatches had been received. The detachment of twenty-nine marines landed from the Washington is still making the radio station and other properties, and will not be withdrawn for the present.

THOMPSON WORTH \$65,367.75.

(BY A. P. NIGHT WIRE.)

UNIONTOWN, (Pa.) July 12.—Josiah V. Thompson, whose affairs were placed in the hands of receivers when the First National Bank of Uniontown, of which he was president, was closed last January, owned 141,413 acres of coal lands, valued at \$65,367.75, according to the report of the appraisers, filed in court here today.

ARKANSAS RACE BILL NOT LAW.

SUPREME COURT HOLDS THAT GOVERNOR'S VETO KILLED THE ACT.

(BY A. P. NIGHT WIRE.)

LITTLE ROCK, Ark., July 12.—Finally and ultimately disposing of the questions at issue in the Sawyer racing bill, the Supreme Court this morning declared the act passed by the Legislature, which would have permitted racing under a State commission and pari-mutuel betting, not a law. The Supreme Court upheld the decision of the circuit court, which ruled that Gov. G. W. Hayes had vetoed the bill.

JAMES EDWARD QUIGLEY.

Funeral of the Catholic Archbishop of Chicago, who Died in Rochester, is Largely Attended.

(BY A. P. NIGHT WIRE.)

ROCHESTER (N. Y.) July 12.—Funeral services for the Most Rev. James Edward Quigley, Catholic archbishop of Chicago, who died in this city Saturday, were held today in St. Patrick's cathedral.

A delegation of 100 priests and a number of laymen from Chicago attended, as well as priests from Buffalo, Erie, Rochester and from Canada, members of sisterhoods and delegations from various Catholic societies.

Abolition was read over the body by four visiting bishops and Bishop Hickey.

The body was started for Chicago this afternoon on a special train of ten cars and accompanied by Bishop Hickey and clergy, and a special guard.

FUTURES.

All kinds of invitations for future events strike the delegates. Best of all is one from Calvin Kinsinger, who is on the ground and doing his inviting personally. Most of Waterloo, Iowa, has been annexed by this Past Exalted Ruler. He is just completing a twelve-story building and will open it officially this week of this month. Just in time to catch some of the returning delegations. What he hasn't promised to do isn't much and he could probably fulfill most of his promises, seeing that his "who's who" record at this moment makes him a westman in St. Mark's Church back home.

OUT THE SIDE DOOR.

"Chickens, beware!" The duties of Mrs. J. P. Ritchie have been unfolded. She is the official spokeswoman of the Elks and never tells what she does herself. Yesterday, with R. J. Reichenberg, chief officer at the Alexandria, she was discovered securing some beautiful fox fur out of a side door and requesting them not to blow in again. It develops that since men and several men are on the staff of official headquarters and if anyone leaves as much as a characteristic, it won't be the fault of the vigilantes.

BASEBALL WINS.

Thomas Cogan of Cincinnati, member of the Grand Forum and close personal friend of "Garry" Herrmann, past Grand Exalted Ruler and chairman of the National Baseball Commission, said last night that he had received a letter from Mr. Herrmann regretting that he could not be present at the reunion this week. Mr. Herrmann wrote that it was imperative he go to New York to attend a meeting of the baseball supreme court to straighten out if possible some phase of the baseball war.

SOME REAL FEP.

"We've got the pep in New Mexico," is the slogan emblazoned by No. 161 of Albuquerque, N. M. District Deputy M. E. Hickey of that lodge is in charge of the delegation here and is giving a practical representation of the truth of the claim made on the badge of small pepper is pendant from the bar bearing the inscription.

TO HEAR FROM DENVER.

Denver's drill team won first prize in the competitive drills of 1912 and 1913. Last year they were prevented from competing by reason of the fact that they were in Denver, but they declare they will be out for the prize when the teams line up at Exposition Park Wednesday afternoon and that the other teams will have to tie down.

DEES UNDER LOAD OF HAY.

(LOCAL CORRESPONDENCE.)

BAKERSFIELD, July 11.—Francisco Maroto was killed under a load of hay on the Miller and East ranch, fifteen miles west of here. A portion of the load slipped, allowing him to fall and be run over. He was 56 years old and has a brother in Los Angeles.

AFTER THE NEWS.

L. F. Williams, editor and publisher of the American Elk of Detroit, Mich., was very much in evidence last night. Mr. Williams was extensively busy gathering data for his publication.

CHAR DECORATES BRITISH.

(BY ATLANTIC CABLE AND A. P.)

LONDON, July 12.—It was announced here today that Emperor Nicholas of Russia has conferred the Cross of St. George upon all the officers and crew of the British submarine which recently sank a German battleship in the Baltic.

ABSENT ELKS.

Local Elks should see that absent Elks are kept fully informed of the proceedings of the Elks' convention, which will be held in this city. There is no better or surer way than by sending them The Times for ten days. The full text of the proceedings will be published daily in The Times, together with illustrated accounts of all events and parades. This service may be had for 25 cents, postage prepaid, to any address in the United States, Mexico or Canada. Orders may be left with any regular Times agent or mailed to The Times main office, First and Broadway, or its Branch Office, 610 South Spring street.

ROWLAND COUNTS CHICKENS EARLY.

AFRAID TO TRADE PLAYERS FOR FEAR HE'D GET SOME AT MISSING WORLD SERIES.

It must be awful to have worried such as Clarence Rowland, manager of the White Sox, suffers from. He wishes to get Eddie Murphy, the Athletics' outfielder, as a reserve player, and Mack, who seems to have lost his love for Eddie, is willing to let go. But he won't take money, and insists on a trade, preferably that of a pitcher. This is logical, as Chicago is first, with more bottom than the Sox.

But Rowland says he may trade very well, because a well-liked player, and he has him out of world series, and the Sox have about as much as they can handle. He will be on top when they trade with these. Nobody needs about world series other than the Sox.

Public Service: City Hall, Courts.

At the City Hall.

ASSESSMENTS ARE COMPARED.

COUNCIL CITES TAXPAYERS TO EXPLAIN VALUATIONS.

Public Safety Committee Proposes New Ordinance to Regulate Sale of Liquor in Clubs, Designed to Clamp Lid on Sunday Saloon Organizations.

Beginning its sessions as a board of equalization yesterday, the City Council issued citations to ninety individuals, corporations and estates to appear and show cause why they should not be required to pay higher taxes because of the low assessments placed upon their property. In calling for these citations, Chairman Wheeler of the Finance Committee presented a list of assessments wherein the city valuations for 1911 were 40 to 70 per cent. under the county valuations. For the ninety instances cited yesterday the total county valuation was \$1,554,296, while the city valuation of the same property was \$966,030. In some instances, property valued by the county at \$1500 was assessed by the city at \$1000 and one piece valued by the county at \$6985 is valued by the city for taxation at \$2518.

City Assessor Mallard asked the Council if it ever reduced the assessment figures when they were higher than those of the County Assessor. Chairman Wheeler replied that the instances where the city valuation is higher than the county valuation are so few and far between that they are usually overlooked. "I may add," said Councilman Wheeler, "that so far as I have been able to find, there is not a single piece of property in the city of Los Angeles that you have assessed according to law."

The Council will sit as a board of equalization for the next two weeks. The new Public Works Committee of the City Council decided yesterday to prepare a new ordinance regulating the sale of liquor in the clubs of the city. Councilman Topham was named a committee of one to confer with the Police Commission and get the views of the County Assessor on the need for changes in present regulations. Mrs. Lindsay, chairman of the committee, and Councilman Conwell, the other member, will do the investigating on their own account. It is the desire of members of the committee to frame an ordinance which will close the house of clubs of the city the liberty they now enjoy and, at the same time, clamp the lid on the "Sunday booze clubs" that are conducted solely or chiefly for saloon purposes.

The Public Welfare Committee also discussed the ordinance proposing to require all persons to file information with the police department when they move household goods. The ordinance was voted by Mayor Rose recently and the committee will report July 26 whether a similar one is to be introduced again. It is understood that Councilman Conwell favors the ordinance and Councilman Topham is opposed, while Mrs. Lindsay believes that if the ordinance is to be passed for the benefit of the merchants of the city they should be taxed to cover the expense of the registration.

BIDS OPENED.

MAY ELIMINATE FLUSHING. "Bid day" was observed by the Board of Public Works yesterday when bids for street sweeping and for the water cooling system for the Pacific Reduction Company garbage plant, seven sewers and improvement of two streets were opened. Cleaning streets in the business districts by the vacuum process will cost 1 1/2 cents a thousand square feet if the Baxter machine is used and 30 cents a thousand square yards if the Jacoby combination brush and vacuum system is used. The present cost, according to the best figures available, is 12 cents for sweeping and 1 cent for flushing. The bids for the water cooling plant for the garbage reduction plant are complicated and all were referred to the City Engineer to be tabulated before an award could be made. The improvement of Beacon and for Fifth street will also await awarding until all the bids can be tabulated by the City Engineer.

Low bids on sewer construction were as follows: Temple street between Oxford avenue and Kiley drive, Joe Chatuck, \$28,115.90; Third street between Junata and Vermont avenues, Nick Orty, \$58,930; Thirty-eighth street between Wilton place and Western avenue, \$428; Twelfth avenue between Twenty-third and Twenty-fifth streets, Mike Chatuck, \$1052; Virginia avenue between Western avenue and Hobart boulevard, Lawrence Schelchell, \$1379.

Attorney Reports.

The City Attorney's department handled a total of 404 cases during the last year, including sixty-five actions to quiet title to city property, thirty-nine actions for recovery of taxes, licenses and assessments; thirty-two actions for injury to real property; sixty-two condemnation proceedings, and eighty-one injunction proceedings. This information is carried in a voluminous annual report filed by City Attorney Stephens yesterday. The report covers all litigation in which the city has been a party and it shows the disposition or status of the cases.

At the beginning of the last fiscal year the city was interested in 247 cases pending and 154 new cases were filed during the year. The number of cases disposed of was sixty-five, leaving 236 cases pending at the close of the last fiscal year.

Better Service, Please.

Citizens of Garvanza addressed a communication to the City Council yesterday, demanding through a car service to the north city limits in place of the present shuttle service on Avenue Sixty-four by the Pacific Electric system. The Garvanza Improvement Association circulated the petition and it is signed by 700 citizens in the district.

The petitioners say their district was built up on a promise of at least a ten-minute through service and they ask for an order establishing at least seven and one-half-minute service between Sixth street and the city limits between 6 and 8 o'clock in the morning and from 4:30 to 6 p.m. with ten-minute service in between.

More—or Redesign.

All city employees under civil service and under jurisdiction of the Board of Public Works who are now living outside the city limits will have an opportunity either to resign or to move to Los Angeles within sixty days. This order was formulated by the Public Works Committee.

MAY ELIMINATE FLUSHING. "Bid day" was observed by the Board of Public Works yesterday when bids for street sweeping and for the water cooling system for the Pacific Reduction Company garbage plant, seven sewers and improvement of two streets were opened. Cleaning streets in the business districts by the vacuum process will cost 1 1/2 cents a thousand square feet if the Baxter machine is used and 30 cents a thousand square yards if the Jacoby combination brush and vacuum system is used. The present cost, according to the best figures available, is 12 cents for sweeping and 1 cent for flushing. The bids for the water cooling plant for the garbage reduction plant are complicated and all were referred to the City Engineer to be tabulated before an award could be made. The improvement of Beacon and for Fifth street will also await awarding until all the bids can be tabulated by the City Engineer.

Attorney Reports.

The City Attorney's department handled a total of 404 cases during the last year, including sixty-five actions to quiet title to city property, thirty-nine actions for recovery of taxes, licenses and assessments; thirty-two actions for injury to real property; sixty-two condemnation proceedings, and eighty-one injunction proceedings. This information is carried in a voluminous annual report filed by City Attorney Stephens yesterday. The report covers all litigation in which the city has been a party and it shows the disposition or status of the cases.

At the beginning of the last fiscal year the city was interested in 247 cases pending and 154 new cases were filed during the year. The number of cases disposed of was sixty-five, leaving 236 cases pending at the close of the last fiscal year.

Better Service, Please.

Citizens of Garvanza addressed a communication to the City Council yesterday, demanding through a car service to the north city limits in place of the present shuttle service on Avenue Sixty-four by the Pacific Electric system. The Garvanza Improvement Association circulated the petition and it is signed by 700 citizens in the district.

The petitioners say their district was built up on a promise of at least a ten-minute through service and they ask for an order establishing at least seven and one-half-minute service between Sixth street and the city limits between 6 and 8 o'clock in the morning and from 4:30 to 6 p.m. with ten-minute service in between.

More—or Redesign.

All city employees under civil service and under jurisdiction of the Board of Public Works who are now living outside the city limits will have an opportunity either to resign or to move to Los Angeles within sixty days. This order was formulated by the Public Works Committee.

At the City Hall.

ASSESSMENTS ARE COMPARED.

COUNCIL CITES TAXPAYERS TO EXPLAIN VALUATIONS.

Public Safety Committee Proposes New Ordinance to Regulate Sale of Liquor in Clubs, Designed to Clamp Lid on Sunday Saloon Organizations.

Beginning its sessions as a board of equalization yesterday, the City Council issued citations to ninety individuals, corporations and estates to appear and show cause why they should not be required to pay higher taxes because of the low assessments placed upon their property. In calling for these citations, Chairman Wheeler of the Finance Committee presented a list of assessments wherein the city valuations for 1911 were 40 to 70 per cent. under the county valuations. For the ninety instances cited yesterday the total county valuation was \$1,554,296, while the city valuation of the same property was \$966,030. In some instances, property valued by the county at \$1500 was assessed by the city at \$1000 and one piece valued by the county at \$6985 is valued by the city for taxation at \$2518.

City Assessor Mallard asked the Council if it ever reduced the assessment figures when they were higher than those of the County Assessor. Chairman Wheeler replied that the instances where the city valuation is higher than the county valuation are so few and far between that they are usually overlooked. "I may add," said Councilman Wheeler, "that so far as I have been able to find, there is not a single piece of property in the city of Los Angeles that you have assessed according to law."

The Council will sit as a board of equalization for the next two weeks. The new Public Works Committee of the City Council decided yesterday to prepare a new ordinance regulating the sale of liquor in the clubs of the city. Councilman Topham was named a committee of one to confer with the Police Commission and get the views of the County Assessor on the need for changes in present regulations. Mrs. Lindsay, chairman of the committee, and Councilman Conwell, the other member, will do the investigating on their own account. It is the desire of members of the committee to frame an ordinance which will close the house of clubs of the city the liberty they now enjoy and, at the same time, clamp the lid on the "Sunday booze clubs" that are conducted solely or chiefly for saloon purposes.

The Public Welfare Committee also discussed the ordinance proposing to require all persons to file information with the police department when they move household goods. The ordinance was voted by Mayor Rose recently and the committee will report July 26 whether a similar one is to be introduced again. It is understood that Councilman Conwell favors the ordinance and Councilman Topham is opposed, while Mrs. Lindsay believes that if the ordinance is to be passed for the benefit of the merchants of the city they should be taxed to cover the expense of the registration.

BIDS OPENED.

GREAT LAND CASE TRIAL DATE SET.

SOUTHERN PACIFIC HOLDINGS WORTH MILLIONS ARE AT STAKE.

The long-expected hearing of the six cases against the Southern Pacific, a number of corporations and individuals, oil operators, lessees, etc., by the government, involving thousands of acres of land in the San Joaquin Valley, will begin in the United States District Court here November 1.

The cases belong to the northern division of the southern district, but for the convenience of all concerned, it was agreed that they should be tried here. They will be taken up serially, according to the present temper of Judge Bledsoe, as he indicated yesterday when the government, through E. J. Justice, special assistant to Atty.-Gen. Gregory, moved for a consolidation of the causes.

Charles R. Lewers of San Francisco, representing the Southern Pacific, argued against the consolidation, and attorneys representing other defendants declined to be taken up in court during the trial of a consolidated case, that according to the estimates of Justice would not be less than three months.

Judge Bledsoe in setting the date for the first cause of action said he would hear additional arguments on the question of consolidation September 30 in this city, before the beginning of the trial.

The hearing will be the most important ever in the local Federal Court, involving as it does not less than 100,000 acres of land valued at millions of dollars. It will be the first case between the government and the Southern Pacific, various lessees and operators on the question of alleged fraud in securing patents from the government, under the laws

GOVERNMENT WINS.

Judge Delivers Opinion Against Oil Companies—Injunction Allowed and Receiver to be Appointed.

Judge Bledsoe yesterday delivered an opinion in the suits of the government against George W. Cutchen, Obispo Oil Company, David Kinsey, Midway Field Oil Company, and the Midland Oilfields Oil Company, allowing the injunction sought for by the government and the appointment of a receiver.

The injunction sought was in the nature of a restraining order, and the appointment of a receiver to take charge and operate the oil wells situated upon the property sought to be recovered by the government. The suits by the government are to quiet title to the land involved in the action, being alleged that fraud and deceit entered into the proceedings that resulted in the granting to the defendant persons and corporations certain location claims located in Kern county, in the developed oil field of that section.

Howard Payne of San Francisco was appointed receiver some time ago of a number of properties in that vicinity that are the subject of litigation in the Federal court, and an order was entered making him the receiver under the order issued yesterday.

SALE OF BIG CHURCH ESTATE.

Tickets for Big Church Estate to Go on Sale Thursday Morning—Noted Solicitors to Take Part.

Tickets for the great Pacific Coast sale, to be held for four consecutive days beginning July 29 at Shrine Auditorium, will go on sale Thursday morning at Bartlett's music store. The tickets will be sold for single events or for the season.

Nearly 1000 voices will be heard in the great choir numbers, which are to feature the four programs. The singers will be assisted by the Los Angeles Symphony Orchestra, under Adolf Tandler. Henry Schoenfeld and Mrs. S. B. Dierckx will conduct the capella numbers.

Solicitors will include Mrs. Ernestine Schumann-Heink, the great contralto; Marcela Craft, artist, who created the role of Rosamund in "Fairland," and Carl Schlegel, the eminent baritone.

Today's Beauty Suggestions.

Face powder simply covers up an unattractive complexion and leaves no lasting benefit. Those who have tried a simple supramax face lotion find it much better, as it removes skin discolorations, such as freckles and tan, and makes the skin smooth, white and velvety. This lotion is made by dissolving four ounces of supramax in one-half pint hot water, then adding two teaspoonfuls glycerin. This complexion beautifier does not rub off or show like powder, and gives a more refined appearance. It removes shininess and sallowness, rapidly giving the skin a permanent healthy, youthful appearance.

An especially fine shampoo for this weather can be had at trifling expense by dissolving a teaspoonful of canthox in a cup of hot water. Pour slowly on scalp and massage briskly. This creates a soothing, cooling effect that dissolves and removes all dandruff, excess oil and dirt. Rinsing leaves the scalp spotlessly clean, soft and pliant, while the hair takes on a glossy richness of natural color, also a stiffness which makes it after a canthox shampoo arranging the hair is a pleasure.

Mr. Gordan says:

Think of the coolest kind of clothes you know of. Then think of the firmest.

Then think of them both combined in one piece of goods and you have my new Porous material.

It's firm, wonderfully cool and actually porous. Hold it to the light and it looks like a fine screen. Yet it holds its shape indefinitely.

I'm showing it in plain colors, in stripes and in novel mixtures that strike that quiet, yet individual, note that many men prize.

Suitings are \$55—and worth it! Other fabrics and other weaves down to \$40 and up to \$60. And all "Gordan-Made."

Better see me soon as my door will be locked tight all of August. Vacation? Yes—in San Francisco.
